

VOTERS TO DECIDE ON CONSOLIDATION WITH DALY CITY

A special election will be held tomorrow, April 30, at which time the residents of a portion of Colma will decide the question of the consolidation with the city of Daly City of a section bordering on the southern limits of this city.

Advocates of the consolidation plan declare that there is at present urgent need for developments and improvements in that section that are essential to the progress of the community. It seems to be generally agreed that these improvements can be obtained only in two ways, either through consolidation with Daly City or through incorporation of that section.

Those who favor the consolidation plan believe that the needs of the district can best be conserved by becoming a part of Daly City, and thus be able to participate in the many benefits to be derived from being a part of a municipality with such an excellent reputation as that borne by Daly City.

It is also pointed out that should the voters decide in favor of the consolidation, that district would within two weeks time after the election become a part of an established municipality, without the long delays, great expense and trials which are always a part of the incorporation of a new territory.

EARL ELDRUP HURT IN AUTO ACCIDENT

Arthur Peterson, of Alexander and Roosevelt, was driving his Oakland sport touring car across the intersection at Acton and Rice streets, Saturday evening, when a Hayes touring car came careening around the corner and hit the left hind wheel of his machine. The Oakland turned over twice, pinning Earl Eldrup, who was accompanying Mr. Peterson, beneath the car. On recovering consciousness he found his left arm being crushed by the pressure of the car. The car was lifted off the young man and he was taken to the South San Francisco hospital, where he is at present. He was found to have a compound fracture of his arm and numerous body bruises.

The driver, Arthur Peterson, was somewhat bruised and received a strained leg. The Oakland was quite badly wrecked. It is understood that neither of the cars were insured.

Earl is the Junior Councilor of Crocker Chapter, Order of De Molay, and is being visited frequently during his incapacitation by the Chapter members.

HIGH STUDENTS MAKE CREDITABLE RECORD

Nineteen boys and twenty-six girls made records of B's or better on their report cards, issued Monday at Jefferson Union high school.

Six students, one senior, three sophomores, and two freshmen, are on the Honor roll with a record of all A's for the third quarter. They are: Albert Ambrosio, Miriam Bentley, Rosemary Reed, Elizabeth Saame, Evelyn Smith, Anne Tromberger.

The thirty-nine students on the College Recommendable roll are: Carmen Bautista, Albert Belli, Thurston Bentley, Henry Boynton, George Brenner, William Brush, Marguerite Cameron, Ethel Dubic, Melvin Eisenberg, Mildred Franklin, Helen Ginsberg, Helen Green, Louisa Harbaugh, Martha Johnson, William Jost, Gerda Kock, Evelyn McKee, Susan McKee, Irene Millett, John Muller, Cecelia Nelsson, Charles Nelsson, Paul Passaglia, Adalena Perasso, David Pope, Phillip Pope, Thelma Prentice, Joe Rachetta, Benny Roth, Paul Rauschan, Frances Sampson, Edna Smith, Francis Stark, Henry Suenderman, Mildred Swan, Will Sweeney, Gifford Teel, Marie Walker.

MANY NEW RESIDENTS COME TO RIGHT PLACE

Reports from the city water office indicate the arrival of the following new residents during the past week:

M. E. Pastel, 141 Alexander street; J. Saper, 1040 Brunswick street; F. C. De Ryke, 27 Willis street; Rosalie Coleta, 151 Evergreen avenue; L. B. Jones, 238 Winchester street; Miss G. Whitney, 400 Rhine street; A. L. Cook, 101 Citrus avenue; J. E. Day, 74 San Pedro avenue; G. Lowden, 270 Winchester street; Mrs. F. McGuire, 214 Evergreen avenue; G. R. McClelland, 483 Bellevue avenue; M. Gray, 157 Winchester street; J. F. Martin, 1246 Brunswick street.

Mr. L. B. Jones purchased his home from C. Joscelyn, of Daly City, who completed it recently.

Mr. G. R. McClelland is a Civil war veteran who has decided to make his home here.

AID IS SOUGHT FOR FLOOD SUFFERERS

With news from the Mississippi flood area growing more serious daily, it being reported that many lives have been lost and incalculable damage done to property, the San Mateo County Chapter, American Red Cross, has sent out an earnest appeal for a quick response by the people of this county to the national call for relief funds. The San Mateo county Chapter's quota has been increased to \$4,000, and the chapter has been asked to send funds daily so that the most urgent needs may be met.

The past two years have been unprecedented in the history of our country in the number of disasters. With the exception of the Florida hurricane of last September, the relief work has been carried on by the National Red Cross through the funds obtained at Roll Call time, but such a tremendous program of relief as will be necessary in the present instance can only be completed by the generosity and co-operation of the nation at large.

The San Mateo County Chapter of the American Red Cross hopes to raise its quota in record time, and all citizens are urged to make their contributions at once. Walter Martin, chairman of the San Mateo County Chapter, asks that your contributions be sent direct to your local bank, or the Chapter office in the Bank building, Burlingame.

TRUSTEES PLANNING MORE STOP SIGNALS

At the meeting of the Board of City Trustees at the City Hall last Monday night, Mayor H. H. Smith presiding, a second meeting between the Fire Commissioners and the committee of the City Trustees was arranged for Tuesday evening, to draft fire ordinances for the safety of the city.

An ordinance placing stop signals on all street leading into Mission street was read for the first time.

An ordinance changing the house numbers on Winchester street was also read for the first time.

The board purchased a lot on which to locate the city pound, and work will start at once on arranging the sheds and the keeper's house.

A delegation of residents from the Vista Grande district were present to protest against the assessment for street improvements, and notified the board that they would take legal steps to stop the same.

After all bills and salaries for the month were ordered paid, the board adjourned to meet May 9.

REAL ESTATE BOARD FACTOR IN PROGRESS

The regular luncheon of the New Mission Real Estate Board was held last Wednesday at Monterey Grill. A banner representation of the brokers and salesmen of this district, as well as visitors from the Mission, proves that the board is a factor that is attracting notice from the downtown sections.

Daly City was represented by Claude B. Rich and J. J. Fahey, of Fahey & Rich, and Mrs. C. Olson, of the Community Realty Co.

The territory included in the board's program extends from Daly City to College Hill, at present. Mr. Fred Braun and J. Sala, who gave short talks after lunch, both stated that should the board consider enlarging their activities to Sixteenth and Mission, they would guarantee hearty co-operation from all the realty firms from College Hill thence.

An advertising program for the May Day festivities was donated to the district by the board, as their share of publicity towards making the McLaren Park opening, our first civic enterprise of any moment, a success.

The next regular meeting will be held on Wednesday evening at 8 o'clock at the office of A. B. Frank.

PHYSICAL EXAMINATIONS OF CHILDREN ON MAY 12

Is your child in a good physical condition to enter school? Do you know—are you sure? Healthy, vigorous children have a better chance to do well in school.

Residents of this section should be advised that physical examinations of children about to enter school will be made free of cost, at Vista Grande school, Daly City, on Thursday, May 12, between the hours of 9 and 12 a. m.

This examination is sponsored by the Bureau of Child Hygiene, California State Board of Health, and is free of cost to parents.

If you wish your child examined, and he should be for his own protection and for his future welfare, take him to the Vista Grande school on May 12.

LUNCHEON GUEST STRESSES NEED OF ORGANIZED PLAY

Miss Josephine D. Randall proved an interesting speaker guest at the Lions luncheon on Monday.

The play instinct inherent in the child was treated in a thorough manner from the first stages in infancy on through the teens of school age. Miss Randall stressed the need for organized play methods and for adequate space and equipment. The need and results obtainable were proven conclusively as worthy of every effort put forth in community organization toward the establishment of suitable playgrounds for all community youth.

A topic of general parental interest was touched on by Dr. W. J. Lantheaume in stressing necessary hygienic guidance toward protecting the teeth of the child, because of the bearing the baby teeth have toward promoting a better permanent set. Periodic examinations and advice from competent practitioners was strongly advised.

Tickets were secured and made available for the big charter affair to be held May 4 as a dinner dance at the Whitcomb Hotel, and much interest is being manifested toward making this thoroughly entertaining and enjoyable. Friends of local Lions are promised a real treat on this occasion.

INCREASED INTEREST AT GRACE CHURCH

We are happy to announce that the interest in the church work of last Sabbath was way above par. Our good superintendent of the Sunday school was overjoyed to have 112 in the school and a number of New Testament were given to the faithful scholars. We simply say to all, "Let us keep up the good work and study the Bible."

A splendid program in the C. E. was held at 7 o'clock, led by our genial president, Miss Katherine McKeown.

The audience in the evening was fine, both in numbers and in interest, and the duet given by Mrs. Roof and Mrs. Bails was not only well given, but was much appreciated by the audience.

The sermon theme for next Sabbath evening will be, "Why Don't Men Go to Church? Why Don't Women Stay at Home More?" Come, let us study the facts from a Biblical standpoint. Extra special music is promised for this service.

The newly elected members of the trustee board of the church are hereby called to meet at the church for the purpose of organization, and such other matters as may come before them, on Monday night at 8 o'clock.

A Mother's Day program is being prepared for May 8, and the committee promises a real program.

C. H. G.

NEW OFFICERS CHOSEN BY JEFFERSON P. T. A.

The monthly meeting and annual election of officers of the Parent-Teachers' Association of Jefferson Union high school was held Monday evening in one of the large classrooms of Jefferson Union high school. A large number attended and three new members were added to the roll.

Under the regular order of business, ways and means were voted to raise the final payment, while moving picture machine of such a been presented to the school 1,000 of Jefferson Union high time ago. The payment of the high school annual dues was also a complete success.

The following officers were elected: Mrs. Earl Ennis, president; of the O. Best, honorary vice-president; L. C. Taggart, vice-president; of Schmidt, secretary; Mrs. Mary, treasurer; Mrs. J. Valdivia, auditor; Truman Bentley, auditor; Pre better Millier, parliamentary. The election of officers will take place at the meeting in June.

The meeting adjourned of Bakers room, where refreshments were served by the reciprocal to its plant Mrs. E. Friend.

On account of the n. expended on tion, which will be hence by A. P. from May 23 to June the company. no regular meeting program is com- members are asked to avel unit will one day, presenting mof a sand con- at the convention. e tank for high here.

COUNTY REDISTRICTING PETITION GETS EN BEING

Superior Judge George H. Buck on Wednesday denied "without prejudice" the petition of Frederick Peterson, Burlingame business man, for a writ of mandate to compel the board of supervisors to redistrict San Mateo county into five supervisorial districts "as nearly equal in population as may be."

HIGHWAY BOARD ORDERS PAVING OF BOTTLENECK

The California State Highway Commission announced Tuesday in Sacramento that the paving of the "bottleneck" at Colma has been ordered, and that bids for the work will be received immediately and the paving done as soon as possible. The road-way to be paved is 1.6 miles in length.

The work of grading the road, which is designed to end congestion in the "bottleneck," has just been completed by the Kaiser Paving Company of Oakland, and the paving will start as soon as the contract has been awarded, it is understood.

The new road between Colma and Cypress Lawn cemetery is designed so that there will be "one way" lanes for automobile traffic, with the tracks of the Market Street Railway Company in the center. The cost of the improvement was shared by the city of San Francisco, San Mateo county, the Market Street Railway Company and the California State Highway Commission.

There will be general rejoicing on the completion of this work, as the famed "bottleneck" has long been a source of inconvenience, and a real danger, as there has not been room enough on the highway for the traffic and there have been numerous accidents as well as a serious delay to traffic as a result of the narrow roadway.

DUMBARTON BRIDGE OPEN DAY AND NIGHT

So great has been the demand of motorists throughout California that Dumbarton highway bridge remain open all night that officials of the bridge company on Monday placed into effect and order that will keep the giant span open twenty-four hours a day.

Announcement of this order, which will be welcomed by California motorists, was made by John G. Sutton, general manager of the Dumbarton Highway Bridge Corporation. He explained that the demand has come from all parts of the state.

Sutton also released figures showing the number of automobiles that have passed over the bridge since it was opened on January 11. The total to date, he announced, was 117,000. The average weekly traffic has been 6,500. The heaviest week recorded thus far was between February 20 and 27, when 10,062 motorists crossed the span.

BUILDING PERMITS ON THE INCREASE

City Clerk B. C. Ross reports the following building permits for the week:

Lindgren Bros., 328 Lowell street, five rooms and garage; 334 Lowell street, five rooms and garage.

H. Shapiro, 4 Woodrow street, five rooms and garage; 8 Woodrow street, five rooms and garage; 12 Woodrow street, five rooms and garage; 16 Woodrow street, five rooms and garage.

Duerner Bros., 954 Brunswick street, four rooms and garage; 960 Brunswick street, four rooms and garage; 968 Brunswick street, four rooms and garage; 974 Brunswick street, four rooms and garage.

J. L. Vasey, 6843 Mission street, one store and one community hall.

Young, 146 Woodrow street, four rooms and garage; 150 Woodrow street, four rooms and garage. The Red Wood Lumber company expects to employ more than 4,000 men throughout the summer. It is equipping its seventeen miles of railroad into its lumber holdings with electric motors to replace the steam power hitherto used.

Six large metal signs advertising Sanger with the words Welcome To Sanger across the top, will be erected at the main approaches to the city by the Sanger Chamber of Commerce, Kiwanis and Lions' Club. The estimated cost of the novel means of advertising Sanger will amount to approximately \$350, the major portion of which will be borne by the chamber of commerce.

Downey recently cut its new dial telephone system into service and now has quick communication with all other points by means of a direct dial system. To complete the cutover the construction of a new modern telephone building and the installation of machine switching central office equipment was necessary.

One of the largest meetings of the Justices', Traffic and Peace Officers' Association, to be held in South San Francisco tomorrow. The meeting promises to be one of the most important in the history of the organization. It is expected that practically every justice of the peace, traffic officer and peace officer in the district will be present at the session.

COURT DECISION IN SCHOOL SUIT

A verdict of \$675.32 was awarded last Monday by Superior Judge George H. Buck to J. H. Sample and William F. Cody, contractors, who were the plaintiffs in a suit against Jefferson Union High School District.

Sample and Cody filed suit for the sum of \$9,081.60 against the high school district for work alleged to have been ordered by the trustees of the district, and which was in addition to the contract price of constructing the high school building.

The case was tried on January 5, 1927, and was submitted on briefs. Judge Buck's decision was filed Monday. Franklin Swart appeared for the high school district.

McLAREN PARK TO BE DEDICATED SUNDAY

Daly City and Colma will be well represented at the May Day celebration and dedication of McLaren Park on Sunday, for the drill team of El Carmelo Parlor No. 181, N. D. G. W., will participate in the parade. The fame of the team is well known, and so much so that a special invitation was extended to it to add its quota of beauty and color to the turnout which, according to the secretary of the Mayor's Committee of 100, in charge of the affair, will be one of most imposing and beautiful processions ever seen in the city.

This celebration is also intended as a tribute to John McLaren, who made parks for his city so famous throughout the world, and whose love for children has resulted in May Day at McLaren Park being made a children's day. For that reason every child in Daly City and Colma should not fail to see the parade and enjoy the program next Sunday.

The parade will start at Tingley and Mission streets, at 1:30 p. m. Thence south on Mission to Onondaga, then counter-marching north on Mission street to Brazil avenue, thence east on Brazil avenue to the Park.

The project was sponsored by the Central Council of the Greater Excelsior District, Arthur H. Ringholm, chairman, of the Mayor's Committee of 100.

HAVE SURPRISE MILK SCORING CONTEST

A surprise milk scoring contest on San Mateo county's retail milk supply has recently been completed by a representative of the State Department of Agriculture, and the average score of all milk sold was found to be 95.8 per cent. This rating is the highest ever obtained in the county and represents an increase of 2.9 per cent over the score of the previous contest.

This high record for the local milk supply should assure the consumers that they are getting a wholesome product, carefully supervised in its production and distribution. It also indicates to the State Department of Agriculture, under whose authority the local department operates, that the county milk inspection department, under the supervision of Dr. F. Holmes Smith, county health officer, and J. J. Garland, county milk inspector, is satisfactorily inspecting the county's milk.

The state only permits the use of its grade labels (grade "A," "B" or "Guaranteed") on milk when a local inspection department is so managed and equipped so that it can properly grade and test market milk in a manner demanded by the pure milk law.

The results of the surprise inspection are as follows:

Grade A Pasteurized—Distributors between 95 and 100 per cent.

Gibson also hints, Colma; Millbrae and its Delivery Co., be in a bid for Mickey Creamery, San diego weight championship.

Pete Latzo for the weight, however, will be the un- Occidental mer lightweight champion, Dairy, Red- Colma.

Protect Horse Michelson

Mr. Michelson, died at inand Mich- street, last illness. The at the new of W. C. es were held Rev. Pitman, C. Lasswell & in Woodlawn

Meeting of St. Maximus Girls' Club

Last Tuesday evening the St. Maximus Girls' Club held their meeting at the club rooms, presided over by Miss Marge O'Connor, president. Plans were made to hold a whist and dance on Tuesday evening, May 17, at the Daly City Auditorium. The meeting was very well attended. After the business was concluded, refreshments were served by the social committee, headed by Miss Ella Mertini.

INSANE PREACHER SHOT DOWN AFTER REIGN OF TERROR

Deputy Sheriff C. A. Callahan is at the Community hospital in a serious condition, and John Harvey Roberts, itinerant cowboy preacher, is dead as a result of Roberts having run amuck last Friday. That Joseph Meeks and Manuel Trinta, officers who were with Callaghan at the time of the shooting, are alive today is probably due to the poor marksmanship of the insane man.

The trouble had its origin when residents of The Homestead complained to the police at San Mateo that Roberts was camping on a vacant lot in that district, and asked that he be forced to move. He was advised by Sergeant Martin of the San Mateo police to move on, and agreed to do so. Later the officer, accompanied by Officer Manuel Trinta, returned and found Roberts still on the spot. A number of children had congregated, and Martin told them they would have to go to their homes.

"These kids can stay here if they want to," shouted Roberts, with which he whipped out a revolver and began firing at the officers, who did not return the fire for fear of hitting some of the children.

Roberts then started to drive down the highway in his "traveling tabernacle," and was near the Beresford crossing when he was overtaken by Officers Callahan and Meeks, who had been summoned from Redwood City, and the San Mateo officers.

Callahan and Meeks got out of their machine with drawn pistols and as they approached Roberts, Callahan asked him where he was going, speaking in a friendly manner. Without warning, Roberts blazed away with his old-fashioned .45 Colts, shooting the gun from Callahan's hand before he could pull the trigger.

A second shot struck Callahan in the abdomen and he sank to the pavement. In the meantime Meeks was sending a barrage in the direction of Roberts, who was sitting on the driver's seat of his wagon. Meeks unloaded his revolver in the direction of the crazed man, three bullets entering the latter's body. The last shot from Deputy Meeks' gun struck Roberts' cartridge belt and four shells exploded, tearing a hole in the man's side. With a wild cry he jumped from the wagon to the side of the road, where he fell, mortally wounded.

Roberts was removed to the Community hospital, where he died a half hour later. He had nothing to say, he declared just before he passed away, except that he was sorry that he "had to shoot a policeman."

Reports from Callahan's bedside are to the effect that he is making a brave fight and will undoubtedly recover, although seriously injured.

Roberts' wagon and burrows have been a familiar sight on the peninsula for the past few weeks. For some time he camped on the highway just south of Redwood City and a few days before the tragedy moved north.

Roberts seems to have had a penchant for red. His revolver and shotgun were painted red, and several of the many signs on his wagon were in the same color. Even the bullets in his pistol were doused in red paint.

WAR VETS MAY LOSE INSURANCE RIGHTS

World war veterans are again reminded that July 2, 1927, is the last day on which to reinstate and convert war time insurance. Information relative to the reinstatement and conversion may be obtained from the service officer or any post of the American Legion, Veterans of Foreign Wars, Chapters of the Disabled American Veterans of the World War, secretaries of the American Red Cross chapters, Knights of Columbus Councils, Jewish welfare organizations, or from your nearest regional office of the U. S. Veterans' Bureau. The San Francisco office is located at 814 Mission street, the Los Angeles office is located at 420 South San Pedro street, and the Reno office at 29 Front street. Write or telephone immediately for this important information.

Remember, July 2, 1927, is the absolute dead line.

AIRPORT TO BE NAMED FOR DONOR OF FIELD

San Francisco's municipal airport at Millbrae is to be named for Ogden Mills, San Mateo county capitalist, who is leasing the field to the city at a nominal sum, it is announced. The field will be known as the "Mills Municipal Airport of San Francisco." This was decided upon Monday by the San Francisco supervisors, together with the date for dedicating the big field. Dedication services have been set for May 5, when the state-wide aviation conference of the California Development Association will officially open in San Francisco.

CARE OF TIRES BY CAR OWNERS

Average Motorist Will Be Found Guilty of Neg- lecting Some Detail.

Most forgotten of all parts of a motor car when they are in good condition, and most blamed when they go wrong, tires plead mutely for a driver's attention.

If you should ask the average motorist whether he takes care of his tires, he would probably reply, "Of course"; and yet the chances are that he is neglectful of some detail of tire care.

Three Tire Factors.

There are only three factors which govern the cost per mile of tire operation. The first is the quality of the tire, the second, the conditions of operation, and the third, the care of the tire by the owner. In order to cut down the cost of tire mileage, all three factors must be regarded as important.

It is of no benefit to buy the best tires obtainable, put them on your car, and then forget about them. Watch for small cuts, bruises, pieces of metal or other foreign matter in your tires. Slight defects such as these, if unattended to, will cause serious trouble.

Proper inflation of tires is most important. Tires of any size are made to hold a definite amount of air under pressure. Any certain tire is designed to carry its prescribed weight only if it is properly inflated. Therefore, don't wait until your tires are obviously flat before reinflating them, and don't trust to the "kick" method to tell you whether or not they are hard enough. Take a pressure reading once a week, whether your tires seem to need it or not. Underinflation flexes the tire side-walls too much, causing them to break down.

Care of Balloon Tires.

Underinflation in a balloon tire is not as noticeable as in cord tires, and for this reason, extra care must be taken in checking up on balloon tires. In this type of tire, it is not necessary to use such high pressure as in cord tires, but it is just as important to see that you have proper inflation. Balloon tires are also often overinflated. This destroys much of their power to absorb road shocks.

Don't abuse your tires by driving in car tracks and deep ruts, or by scraping curbstones. And don't forget that proper care of your tires means a saving both of time and money.

Automobile Inspection Would Avert Accidents

Many automobile accidents could be eliminated if motorists got into the habit of having their cars inspected and overhauled regularly. In the opinion of the National Safety council, which points out that a great proportion of automobile accidents are due directly to faulty equipment.

The following rules also should be carefully adhered to by motorists in order to cut down the number of unnecessary accidents:

Brakes should be kept in efficient condition at all times, and frequent tests should be made.

Chains should be used during icy and wet weather.

Number plates should be kept clean. Motorists should not tolerate noisy mufflers.

All cars should be equipped with bumpers, as they will lessen damage due to collision.

Army Car Drivers Must Share Road With Others

Listed among the strict prohibitions observed by operators of United States army cars are: Smoking while driving, repeated sounding of horns, and holding back faster-moving cars. On dry, dusty roads the driver must run at reduced speed, so that no unnecessary dust will be raised to obscure the vision of other motorists. When meeting an approaching car the soldier-chauffeur is ordered to give it no less than half the road. If the road is narrow or rough he must slow down to half speed. No operator is allowed to halt on a bridge, narrow road or bend of the road. These traffic orders have been drawn up to provide the greatest possible saving of life, time and motor equipment.

SMALL CAR MAY SOLVE TRAFFIC PROBLEM

This light car is used by business men of The Dalles because it can "wiggle" its way through heavy traffic. It is so light that it can be picked up, one end at a time and parked in a small place. It is capable of running at a speed of 12 miles an hour. This type of car, in the opinion of experts, may solve the traffic problem of the future.

Brunette Is Most Careful Car Driver

Fair men are more careful motor car drivers than dark men, but brunettes are much steadier than blonds at the steering wheel, it was declared by experts at a luncheon celebrating the opening of the fall automobile show in London recently.

Incidentally it was stated that one woman in four in England knows how to drive a motor car.

Passing on Blind Turns Very Dangerous Practice

Passing on blind turns! That's too common a trait of the average motorist, according to the safety bureau of the National Automobile club. Making up time, delay in passing the car ahead until too late for such passing, recklessness, taking a chance, all these factors enter into the problem of hazard.

A group of newspaper men set out to observe the other day a driver who was just ahead of them and who seemed to have a habit of attempting to pass at the wrong moment. Time after time this driver would slow up on the straight-away only to speed and pass the cars ahead when he came to a turn. There was something radically wrong with his driving complex. He might have intended to be careful, but his judgment brought him to grief.

Most accidents are caused by just such drivers, drivers who should not be allowed at the wheel of a motor car, as they are a menace to the safety of others. The innocent victim is usually the man swinging around a turn only to find a foolhardy pilot taking more than his share of the highway.

A forfeiture of a driver's license, a few days in jail, these are sentences that should be the reward of the man who takes a chance when in taking the chance he endangers the lives of others on the road.

Simple Arrangement to Gain Extra Gas Mileage

If you car is fitted with an automatic windshield wiper of the vacuum operated type you can fit an auxiliary air inlet to get more mileage out of your gasoline on long runs. Connect a petcock in the rubber hose line lead-

More Mileage on Long Runs.

ing to the wiper and on long runs you can pull the end of the hose off the wiper and allow extra air into the manifold by adjusting the petcock. The illustration shows the arrangement.—Popular Science Monthly.

AUTOMOBILE HINTS

A car that will go eighty miles an hour shouldn't.

Too high a temperature will dry out the rubber in tires, while too low will stiffen it.

Do not use a nonskid tire on one rear wheel and a plain tread on the other wheel.

An emergency cotter pin can be made from a common hair pin by a few twists of the pliers.

A man never realizes just what "dumbness" means until he is driving on a country road and meets a cow.

An eastern judge has ruled that a man has a right to drive his car without any assistance from friend or foe in the back seat. He also has a legal right to monkey with a buzz saw or light a match to find a gas leak.

CALIFORNIA NEWS BRIEFS

The California Avocado Association has shown a gain of over 136 per cent in business in one year.

George W. Myers, 63, pioneer rancher of the Selma community, Fresno county, died at his home after a long illness.

The contest for a slogan for the city of Kingsburg, put on by the chamber of commerce will close Saturday, April 30.

Two new buildings are being planned for Sanger. One is an Eagle Lodge hall to cost \$13,000 and the other a hotel to cost approximately \$42,600.

Two locust trees in the court house ground at Yreka, the scene of the lynching of four men charged with murder a generation ago, have been cut down.

Contract has been let by the San Luis Obispo city trustees for six-inch cement concrete pavement on seven streets in the west center of town near the business district.

A coyote, captured three years ago on Cache creek and kept in captivity by Mrs. Anna Pruitt, Woodland, has just given birth to a litter of seven pups, the father being a fox terrier.

The new Veterans' Memorial building at Delhi was officially dedicated Easter Sunday, although of necessity it has been in use for eight or nine months. A fitting program of dedication was prepared.

An architect is preparing plans for a one-story frame and stucco school building, to be erected in Lagunitas, Marin county, for the Lagunitas school district. It will contain three class rooms and will cost about \$25,000.

M. C. Cader has started work on the construction of a \$20,000 hide warehouse on his property just outside the city limits of Petaluma. The building will be 50x150 feet in dimensions and will have a concrete foundation and floors.

San Diego's rapid development in recent months is reflected in the recent announcement by City Engineer F. A. Rhodes and county officials that approximately 200 miles of streets and highways are to be permanently improved before the end of the year. This will establish a new record for San Diego county road building.

Construction of a \$20,000 auditorium for Hughson Union high school from funds already available was endorsed by a vote of 355 to 243 at the advisory election held at Modesto. The election was called by the trustees of the high school to learn the wish of the taxpayers regarding the proposed building. A hot campaign preceded the election.

Approximately \$315,600 will be expended this year for telephone development in the Alhambra exchange, \$231,300 of which will be for outside plant equipment, \$44,700 for central office equipment, and \$39,600 for equipment to be placed on subscribers' premises. Last year Alhambra had a gain of 923 telephones or a 16.95 per cent growth.

Work has been started on the hospital for the campus of the University of Redlands at Redlands, to take the place of the infirmary which is to be wrecked to make way for the new gymnasium. The building permit calls for a concrete structure with tile roof which will cost about \$16,000 and provide for about ten beds for men and ten for women.

A Kings county historical museum is possible as an outcome of the Hanford home-coming day and fiftieth birthday. Attention is called by Rupert Kendall to a most comprehensive collection of relics, curios and antiques possessed by Dr. Frank Griffith, for sixty-seven years a resident of the Hanford community, which would form the nucleus of such a collection. It is said to contain 1,000 articles.

The Santa Barbara county branch of the California Cattlemen's association is planning to make a complete survey of the cattle industry in the county, including a census of the beef herds, names of owners, acreage available for grazing and a report on grazing conditions. Reports indicate that grazing and livestock conditions in general in the county are better this spring than they have been for many years.

Bakersfield Rock and Gravel company, located northeast of Bakersfield near Kern river, has just completed a \$25,000 addition to its plant and within another sixty days an additional \$25,000 will be expended on the plant, it was announced by A. P. Karpe, president of the company. When the expansion program is completed, the rock and gravel unit will include the installation of a sand conveyor system and storage tank for rotary clay, a by-product which hereafter will be saved.

To prevent beekeepers from being stung, a bill by Assemblymen Deuel and Bernard is awaiting action by the legislature. The bill, which places bee operations under supervision of the department of agriculture, would prevent keepers of the honey producers from selling foul broods.

Following the presentation of a petition bearing the signatures of 400 local people seeking another election for the issuance of \$198,000 in bonds to build a new high school building the members of the high school board of Sanger decided to hold the fourth

A marauding killing tom cat, which has struck terror into the hearts of the exclusive residential district at Modesto and which has caused all owners of cats to keep their pets indoors at night, was recently made the object of a police search. Mrs. Brewster, called police and informed them of the latest debauch of the terrorizing tom. It struck again at her cat which has only recovered from a previous skirmish with the killer. Police have received many complaints from people in the neighborhood. A cat owned by Mrs. Stanley Elliott has just been released from care of the veterinarian, following a terrific struggle with the stalker, in which her cat barely escaped with one of its nine lives. Two kittens and their mother have fallen prey to the feline marauder. The cat has a peculiar howl, described as a "fiendish yowl," that distinguishes it from all other cats in the vicinity.

Riverside has maintained its normal growth during the last twelve months with only degrees of progress to distinguish one year from another in the steady climb as a municipality of residential and industrial importance. Dwellings, schools, municipal buildings, bank clearings, industrial development—all have kept pace with Southern California's general prosperity. Known for its Mission Inn, its Mount Rubidoux, Magnolia avenue and as a city of trees, Riverside has many other accomplishments. Its building program during the last few months has been exceptional. Large sums are being spent on parks. Victoria avenue bridge calls for an expenditure of \$100,000; school program more than \$1,000,000; municipal auditorium, now under construction, \$250,000, and \$200,000 monthly is being put into houses for home-seekers.

J. R. Hall, head of the Sonora forest service, has received a statement of the allotment to the Stanislaus National Forest from the national government for road and trail maintenance for 1927. The appropriations total \$12,700, most of which will be applied in Tuolumne county for improvements. The forest was allotted \$2,700 for forest trails and \$3,500 for the construction of a new road on Soapstone Ridge, in the region below Bowers Cave, Mariposa county. The road will be about three miles long and is being built primarily for fire protection. It is to be constructed on the brink of the Merced River overlooking the deep canyon. The federal government also gave \$6,500 for roads throughout the forest.

A new building for the Bank of Italy on the site of the present structure at Merced will be started within two weeks, according to plans developed after a series of conferences. Alternate plans are under consideration, one for a one-story monumental bank building and the other for a combination bank and office building. It is expected that the type of building to be constructed will be decided shortly, as the result of a survey now going on among business men and professional men. The branch of the Bank of Italy and the Security Savings branch of the Bank of Italy will be combined in the latter's quarters during the construction, and both will occupy the building as one branch.

The bursting of the 150-foot vertical penstock at the Vahreencamp gravel mine, a short distance from Grass Valley on Deer creek, caused damage to the extent of \$2,000 and imperiled the lives of workers. According to F. H. Vahreencamp, the manager, an obstruction was placed in the upper end of the tube at the time it was carrying a big head of water. Whether the act was done maliciously or thoughtlessly has not been ascertained. The penstock is used for power purposes in connection with a gravel mining project, and the accident caused the flooding of the workings and the elevating plant and processes installed there.

A year of great activity in the forests and mills of Lassen county is anticipated by lumbermen as the season of 1927 gets steadily under way. All the large lumber mills in the Susanville and the Westwood district will be in operation before the end of this month. The Red Wood Lumber company expects to employ more than 4,000 men throughout the summer. It is equipping its seventeen miles of railroad into its lumber holdings with electric motors to replace the steam power hitherto used.

Six large metal signs advertising Sanger with the words Welcome To Sanger across the top, will be erected at the main approaches to the city by the Sanger Chamber of Commerce, Kiwanis and Lions' Club. The estimated cost of the novel means of advertising Sanger will amount to approximately \$350, the major portion of which will be borne by the chamber of commerce.

Downey recently cut its new dial telephone system into service and now has quick communication with all other points by means of a direct dial system. To complete the cutover the construction of a new modern telephone building and the installation of machine switching central office equipment was necessary.

One of the largest mergers in Orange county banking history, involving combined resources aggregating more than \$4,000,000 was revealed at Orange with official announcement of plans for consolidating the First National Bank and the National Bank of Orange, together with their affiliated saving institutions. Easter week brought to the Monterey Peninsula more than ten thousand visitors, drawn from all parts of the United States, and in a few instances from Europe and the Orient, a check of local hotels and tourist

CAUGHT IN FENCE AND CLUB LOSES

Little Finger Stuck in Crack Between Boards.

While we are on the subject of unusual plays there was one that occurred several years ago in the Three-I league in a game between Davenport and Peoria in which Davenport lost a ball game through its right fielder getting his little finger caught in a crack between the boards in the outfield fence.

It happened in the latter part of the game, with Davenport in the field with a two-run lead and every prospect of winning the game. Peoria got two men on with two out, when the next batter lifted a high fly to right field that looked to be easy for the right fielder, who backed up toward the fence to make the catch. Johnny Castle, then manager of the Davenport team, was playing in center field, and he yelled at the right fielder to "watch out for the fence," whereupon the right fielder turned and stuck out his bare hand against the boards of the fence just as the ball struck the fence above his head.

The force of the impact of the player's hand against the board fence sprung out the board enough to permit the fielder's little finger to slip into the crack between the boards, and the board, springing back, held it there as in a vise, while the ball, having struck the fence fell dead at the player's feet. As his finger was held tight between the boards of the fence, he couldn't stoop to pick up the ball, and while the crowd and the other players wondered what was the matter with him the base runners and the batter who had hit the ball were tearing around the bases with the tying and winning runs.

By the time Castle had raced over from center field and returned the ball to the infield the batter had made a home run and the game was lost—then he pushed out the board in the fence and released his right fielder.

Paul Goebel Says His Football Career Ended

Paul Goebel, former Michigan star, announces that he is through with football and that he will devote his time in the future to the sporting goods store he operates at Grand Rapids.

Goebel has returned after playing the professional game with Red Grange's team and taking a fling at the movies. Paul admits that he rather likes the movies. After the close of the professional football season Goebel went to Los Angeles, where he took a minor role in Grange's latest picture.

Goebel has been playing professional football every season since he finished at Michigan, but he says he is through.

Mickey Walker Signs to Risk Title in London

The London Daily Mail says that Charles B. Cochran, promoter, has obtained the signatures of both Mickey Walker, world's middleweight champion, and Tony Milligan of Scotland, European titleholder, for a world's championship match in London next June.

The fight probably will be staged in the Derby day season.

It is 13 years since a world's championship has been contested between an American titleholder and a British boxer; a match between Walker and Milligan would attract the keenest interest in British sporting circles, it is expected.

Tunney Will Defeat All Opponents, Says Gibson

Gene Tunney will get back into the ring in a few months and will "lick 'em all," is the confident opinion of his manager, Bill Gibson.

"It doesn't make any difference to us," Gibson said, "whether it's Maloney, Sharkey or Dempsey. Tunney can lick them all, one after the other if necessary."

Gibson also hinted that Benny Leonard's promised return to the ring may be in a bid for Mickey Walker's middleweight championship. A match with Pete Latzo for the welterweight title, however, will be the undefeated former lightweight champion's first objective, Gibson said.

Protect Horses

The Society for the Prevention of Cruelty to Animals of Madrid has ordered all horses used by matadors in bull fights to be padded, so that the bull, in his charge, will not gore them with his horns. This mount is shown with the new type of protection.

TWO HOMES MADE HAPPY

By Women Who Used Lydia E. Pinkham's Vegetable Compound.

"I have taken Lydia E. Pinkham's Vegetable Compound and I think it is the most wonderful medicine I ever tried," is the statement made by Mrs. Goldie Shoup of St. Joseph, Illinois. She declares that after taking the Compound she is in better health than before.

Mrs. J. Storms of 29 Lane Street, Paterson, N. J., writes: "I cannot speak too highly of your medicine and I recommend it to all my friends."

These statements were taken from two enthusiastic letters which tell of the help that has been received from using the Vegetable Compound. Both Mrs. Shoup and Mrs. Storms were in a run-down condition which caused them much unhappiness. When women are suffering from lack of strength and from weakness, their own life and that of their family is affected. When they feel well and strong and are able to do their household work easily, happy homes are the result.

Are you on the Sunlit Road to Better Health?

Constipation, the cause of most chronic diseases. You may have an action every day and still be constipated. Proper test about discovers it. Write for valuable pamphlet. Simple home cure. M. D., Billings, Mont.

SAVINGS HELP INCOMES

The income of the American people in 1926 is estimated at almost ninety billion dollars, or \$770 per capita. It is the most extraordinary income ever known to man. No other such figure has ever been dreamed of before.

There have been spots where the income hasn't quite covered the necessities—but in general, there has been work, wages and profit for everybody.

This great American income is due as much to the habit of saving, to the thrift that keeps yesterday's surplus from today's investment, as it is to the labor of today.

American progress will not halt so long as there are enough corners for the filling stations.

UNSETTLED AFFAIRS

Affairs in China remain unsettled. Intermittent fighting between the Cantonese and the Northern forces continues without decisive victories being won by either side. Reports have it that American destroyers have been fired on by the Chinese on several different occasions and that several American residents have been killed.

The reply of the Cantonese government to President Coolidge's letter regarding the Nanking affair has been stated as not satisfactory. The British are urging joint action of the British and American forces. They desire the support of the United States in the British sanctions, which would involve the taking possession by force of designated Chinese territory, sealing up ports, etc. It is reported that President Coolidge and Secretary Kellogg oppose this idea and are in favor of a policy of conciliation.

WHAT IS EVIDENCE?

Every once in a while something occurs to upset our ideas concerning the kind of evidence that is worthy of credence. Such an occurrence is seen in the case of Conda Dabney, convicted in Kentucky about a year ago and given life imprisonment for the murder of a young woman.

At the trial another woman swore that she was an eye-witness to the crime, and a considerable array of circumstantial evidence was presented to corroborate her testimony. At the time of Dabney's conviction, practically everyone felt that the verdict was just.

Yet, a few weeks ago the woman who was supposed to have been murdered showed up alive and well. Of course, Dabney was released, but think of what he and his family suffered through the diabolical attempt to swear his life away. Suppose he had been executed for the alleged crime.

Many cases are of record in which it was proved later that innocent persons have actually been put to death through perjured testimony. In some instances in which the condemned men have confessed murder, the supposed victims have turned up alive.

All this illustrates how unreliable the most convincing evidence may be, and while it is doubtless true that for every innocent person punished a dozen or more guilty ones escape, it shows what a grave responsibility rests upon a jury, particularly when a human life is at stake. It is also a most excellent argument for the complete abolishment of capital punishment.

FARM RELIEF

It is indicated that farm relief will be an issue in the next session of Congress. Senator McNary, of Oregon, in a recent visit to President Coolidge, told the president that he was making some new studies on the subject, giving special study to the bills that had been introduced in Congress at the last session. With these measures as a foundation, he hoped he could work out something that would be helpful. The president informed the Senator that he would like very much to have him make a study of this kind.

Several other parties are making a study of the question, with the object in mind of eliminating the objectionable features of those measures that have been introduced. Senator Fess, of Ohio, in a discussion with the Secretary of Agriculture, said that he had taken up the question with Senator Capper, of Kansas, and other members of the Senate, emphasizing the unlikelihood of enactment of a law containing the so-called equalization fee.

SHIPPING SCHOOL HOUSES

The Bureau of Education of the United States is shipping to Alaska on the steamer "Boxer" from Seattle three complete rural school houses, with living quarters for the teachers. The buildings are ready to set up immediately on arrival in our big northwestern territory. They are destined for the use of the government schools for the Eskimo children. The shipment includes complete furnishings and blackboards and crayons, so that nothing will be lacking to open typical American schools for the wards in that territory.

Justice Charles L. Guy want to make marriage harder. Well, it's hard enough for ordinary folks now. But perhaps the justice is a particularly hard Guy.

ALIEN VISITORS

That visiting aliens who may become applicants for admission as immigrants are required to await admission outside the United States under the quota restrictions is the interpretation placed by Secretary Kellogg upon the immigration laws and regulations, and which was upheld by Justice Sisson in the Circuit Division of the District of Columbia Court.

The decision affects thousands of visiting aliens who got in by reason of provisions in treaties with foreign countries, relative to the admission of artists, actresses, educators, commercial representatives of foreign firms and all other aliens who remain here sometimes indefinitely, though legally. The decision was interpreted as meaning that they no longer have this privilege.

Representative Black, of Texas, stated on April 14, that he would give his support to the proposed amendment to the immigration act to extend the quota restrictions to Mexico. He said in this connection that it is manifest that if we throw down the immigration bars, for the purpose of admitting cheap labor to work on large farms and ranches and bring into cultivation more lands, we multiply the difficulties of dealing with our surplus farm products.

QUESTIONS FOR PARENTS

Parents, who have children who are about to enter school for the first time, should ask themselves a number of questions like the following:

Is my child physically fit to enter school?

Has he any defects, and if so, how serious are they?

Is he growing?

Are his height and weight proper for a child of his age?

Does he stand correctly or does he droop?

Is his gait proper or does he limp?

Are his eyes all right and can he hear well?

Is his skin clear?

Does he breathe through his nose?

Has he good, sound teeth?

Is his throat in good condition; are his tonsils swollen or diseased?

Is his back strong?

Has he flat feet?

Does he eat the foods that will make him grow?

Only a competent examiner can answer these questions, and the Bureau of Child Hygiene of the California State Board of Health, in co-operation with the local authorities, will conduct examinations in this community, free of cost, on May 12, when parents may obtain answers to these important questions.

Every parent should know whether or not his child is suffering from any physical defect, and steps should be taken for the correction of any such defect before the child enters school next fall.

TRIBUTES TO LIFE SAVER

To have been the means of saving even one human life is a most worthy accomplishment. How splendid, then, to have been the discoverer of a method of saving the lives of countless thousands, not only of the past and present, but of generations yet unborn.

Such was the service to mankind rendered by Sir Joseph Lister, famed English surgeon, the one hundredth anniversary of whose birth was celebrated recently at Westminster Abbey in London, and noticed by scientific men and the public in every civilized land.

Our own Public Health Service, in a published statement, called attention to Lister's services to humanity through his discovery of the efficacy of carbolic acid as an antiseptic in the treatment of wounds and in preventing infection after surgical operations. Before Lister's discovery, hospital gangrene was common, and operations were frequently followed by erysipelas, blood poisoning or lockjaw. The highest surgical skill was set at naught by these accompanying causes of suffering and death. As a result of Lister's method it became possible to extend surgery into fields formerly inaccessible, including abdominal, chest and brain surgery.

Another epoch-making contribution to surgery by Lister was the employment of "catgut" in sewing up breaks in human tissues, instead of silk. "Catgut" stitches are finally absorbed, whereas the silk remained as a source of possible future irritation or of abscess formation.

In recognition of his eminent services, Lord Lister received many honors. He was president of leading British scientific societies, was created a baronet in 1883, raised to the peerage in 1897, and was made an original member of the Order of Merit, instituted in 1902. He died in 1912, at the age of 85.

Rev. M. Ray, of Poplar Bluff, Mo., recently had his faith in humanity rudely shaken and later restored again. First, some miscreant stole thirty-four of his choice hens, which caused him to feel that his labors in the Lord's vineyard had gone for naught, but when the members of his congregation clubbed together and replaced the missing fowls, he was fully reassured.

Next Friday, May 6, "The Love Thief" is coming to the State Theatre. This is a picture you can not afford to miss. You should be on hand early, as there is sure to be a record attendance at the State.

Colma News Notes

Louis Nava's butcher shop is sporting a fine new awning.

Olive Grove No. 116, Ancient Order of Druids, will hold an installation of officers Friday night at Jefferson Hall.

The Colma Athletic Club defeated the Daly City Merchants' Association baseball team by a score of 15 to 3 Sunday at Jefferson high school. The game was very well attended.

Mrs. Pauline Shinazy, a popular charter member of the Girls' Club of Colma, will entertain the club at a supper at the home of her mother, Mrs. Pauline Chaine, on Thursday evening, May 5.

Mr. M. Harme returned from the East last week after spending a year there, racing his greyhounds. The year was a very successful one, and he plans to take a string of dogs to Tijuana for the races.

Holy Angels' church will hold its May festival on May 20 and 21 in the Colombo Auditorium. Every member of the parish is working hard to make it a success. The children in particular are helping greatly.

The stretch of the "bottleneck" just south of the intersection of Mission road and the Coast road was closed several times last week and a detour about 50 yards west used. It was closed during repairs on the Market Street Railway track. Blasting has been frequent along the road where the new work is being done and several flying blocks of wood have narrowly missed autos. Drive carefully through the "bottleneck."

The Colma Athletic Club will play the Municipal Railway baseball team Sunday at 2:30 p. m., at the Jefferson high diamond.

Jefferson High's Alumni Association will hold a "Bad Luck" dance on Friday, the 13th of May, for the alumni scholarship, in the Jefferson high auditorium.

Little Norma Cassentini, 8 years old, died Friday noon at St. Luke's hospital, after suffering for a week from acute appendicitis. Funeral services were held Monday morning at 10 o'clock with a mass in Holy Angels' church. Interment in the Italian cemetery.

Louis Crawford, formerly of Fresno, died Thursday at the home of his daughter, Mrs. M. Ratto, of Mission street. Funeral services were held Monday at the new mortuary chapel of W. C. Lasswell & Co. Requiem high mass at St. Maximus church and interment in the Mausoleum at Holy Cross.

Raymond Batz, son of Mrs. Beatrice Batz, bookkeeper at M. Belli & Co., who is touring the world on the President Garfield, writes from Honolulu. He went swimming on the beach at Waikiki. There they were greeted by a band playing "Aloha." Raymond says the meals on board are wonderful, only five a day, breakfast, tiffin or lunch, dinner, tea, and supper at 11 o'clock at night. The next stop for the Garfield will be Kobe, Japan.

On Saturday, May 16, Mr. and Mrs. John Oleese, of Washington and Annie streets, Colma, were presented with a

fine baby daughter, born at the Mills Memorial hospital, San Mateo. This is the second child of the Oleese family, little Elsie being the eldest. Mrs. Oleese, nee Susie Onita, who is very well known and popular hereabouts, is doing nicely and returned to her home on Saturday last. The young parents are receiving the congratulations of their many relatives and near friends.

The chairman of the McLaren Park dedication committee was present at the last meeting of the drill team of El Carmelo Parlor No. 181, Native Daughters of the Golden West, and spoke on the dedication and parade to be held on Sunday, May 1, at 1:30 p. m., starting from Onondaga avenue to Brazil avenue to the new park. As quite a few of the San Francisco officials saw the drill team at Sacramento on September 9th, they wished they would do them the honor of participating in this affair. As it is a civic affair, the members of the drill team will take part in the dedication of the new McLaren Park.

The wedding of Miss Thelma Selmi and Emilio Feretti was solemnized at the St. Maximus church in Daly City last Saturday night, April 23. The bride was attired in white taffeta silk, with veil, carrying a beautiful bouquet of roses and lilies of the valley. She was a charming picture. The bridesmaid, Miss Louise Segali, was dressed in an orchid crepe de chine dress. The best man was John Bianchi, of Colma. Beatrice Batz rendered two solos during the ceremony, "Silent as Night" and "Because." Friends and relatives enjoyed a fine repast at the former home of the bride in Colma, after which the bridal couple left for a trip to the Yosemite. Mr. and Mrs. Feretti will make their home in a beautifully furnished home on the Mission road in San Francisco. They have the best wishes of the community.

After a short romance, Miss Josephine Lee, a very accomplished and popular young lady of this vicinity, became the bride of Mr. Franklin Lambertson, of San Francisco. The marriage ceremony was solemnized by the Rev. Charles J. Bertola at the Holy Angels' church on Wednesday, April 20, at 7:30 p. m., amid a host of relatives and friends. Miss Alice May, gowning in a pretty pink dress, acted as bridesmaid, while Mr. Frederick Volkman, Jr., a particular friend of the groom, acted as best man. The bride was attired in blue silk. Mrs. Lambertson is the youngest daughter of Mr. Thomas Lee, and a highly esteemed member of the Girls' Club of Colma. After motoring "somewhere in California" on their honeymoon, the happy couple returned to the home of the bride's father, where they will make their residence. The numerous relatives and friends wish them a long life and happiness and prosperity.

Next Tuesday "My Official Wife" will be presented at the State Theatre. It is a picture you will enjoy. Six aristocrats cast lots for her and Sacha won! What followed that night in the inn was a nightmare that Helene could never blot from her memory—but, see it, and you will understand.

STATE SCHOOL BANDS WILL ENTER CONTEST

A thousand band boys and girls, representing the cream of the musical talent in the schools of the northern half of the state, are coming to San Francisco, May 6 and 7, to participate in the Northern California school band contest. The contest, which is to be a notable feature of San Francisco's 1927 celebration of Music Week, will be held under the joint auspices of the San Francisco city and county officials, the San Francisco Civic Association, and the Music Trades Association of Northern California.

Entries are now in from twenty schools, more being expected daily, and at least 50 per cent of the bands entered are winners in the district contests which have been held in the past few weeks. A massed concert of all contesting bands, including a standard number rendered by a girls' band of one hundred pieces made up of players from the different bands, is planned as the closing feature of the contest.

Bands entered in the contest to date include San Mateo, Burlingame, Sacramento, Modesto, Woodland, Oakland, Piedmont, Berkeley, Tulare, Polytechnic of San Francisco, High School of Commerce of San Francisco, Arcata, Princeton, Sonoma, San Rafael Military Academy, Lodi and Santa Rosa.

Next Monday "Faust" will be presented at the State Theatre. Emil Jannings, giant of the screen; Camilla Horn, a "find" that was a discovery; Costa Ekman, Sweden's greatest actor; F. W. Murnau, world's greatest director—these make "Faust" the splendid drama it is.

The body of Alfred May, wealthy retired merchant of San Francisco, washed ashore early Sunday morning at Pedro Point, near Rockaway Beach. May disappeared on Tuesday of last week. His coat and vest were found near the beach southwest of Colma, and it is believed that he committed suicide, he having been despondent and in poor health for some time.

FOSTERING INDUSTRY

We are living in an industrial age. Modern industry has created new products and new demands which must be met. Comforts and conveniences undreamed of a quarter of a century ago are now available to the wage-earner and the farmer. Their manufacture and distribution give employment to millions of people. What the future holds in the way of further devices for the betterment of living conditions no man can foresee. The time is coming when every progressive community will be to some extent an industrial community. It follows, then, that those communities which bestir themselves toward the securing of industrial enterprises are the ones that will go forward most rapidly.

The greatest force back of industrial development is electrical power. Where we find an abundance of electrical power at a low cost we find industrial expansion. No industry today is so eager to promote the development of new industries and the expansion of old ones as is the electrical industry.

In every state it is taking the lead in the encouragement of all other enterprises. Electricity is the only commodity of general use that is now sold at a price below that of pre-war days. By the interconnection of generating systems, current is now available to small communities and even to the rural districts which small local plants could never reach.

Still, there has recently sprung up a considerable group of demagogues who would hamper and retard the industrial progress which the electrical industry has made possible. Unless forward looking citizens support and foster the expansion of manufacturing and public service enterprises, instead of shackling them through burdensome legislation, much harm to our entire industrial structure, and consequently the public, will be the inevitable result.

RHODES SCHOLARSHIPS

The 1927 memorandum for Rhodes scholarships in the United States was issued by the Bureau of Education recently. The stipend of a Rhodes scholarship is fixed at 400 pounds per annum. The scholarship is tendered only at Oxford. It may be held for three years, subject to the continued approval of the College at Oxford of which the scholar is a member. Two scholarships are assigned to each state. Since the scholarship is tenable for three years, there is one year out of every three in which there will be no election from each state. A candidate for this scholarship must have completed at least two years' work at some recognized university or college in the United States. He is selected on the basis of his scholarship record, character, and physical fitness.

Often a man pays a lawyer for advice his wife could give him for nothing.

NOTICE OF TRUSTEE'S SALE OF REAL ESTATE.

WHEREAS, on the 27th day of October, 1926, G. A. Roth and Nellie Roth, his wife, and executed and delivered to Rudolph Mohr, Jr., and Howard E. Mohr, as Trustees for Moneta Investment Company, a corporation, a Deed of Trust dated October 11, 1926, for their certain joint and several promissory note for the sum of Eight Hundred and Fifty Dollars (\$850.00), dated October 11, 1926, which said Deed of Trust was recorded on the 6th day of November, 1926, in the office of the County Recorder of the County of San Mateo, State of California, in Volume 274 of Official Records at page 135 thereof; and

WHEREAS, default having been made by said G. A. Roth and Nellie Roth, his wife, in the payment of the principal and interest due and payable under the terms of said promissory note, and in the performance of the obligations specified in said Deed of Trust to be performed, and the said Moneta Investment Company, a corporation, having on the 8th day of January, 1927, recorded in the office of the County Recorder of the County of San Mateo, State of California, in Volume 283 of Official Records at page 178 thereof, a notice of breach of obligation and election to sell under said Deed of Trust, and having more than ninety (90) days and more than three months thereafter, made on April 11, 1927, written demand upon the undersigned, Rudolph Mohr, Jr., and Howard E. Mohr, as Trustees under said Deed of Trust, to sell the real property therein and hereinafter described, to satisfy said indebtedness, and to accomplish said trust,

NOW, THEREFORE, pursuant to said demand and in accordance with the power and authority conferred upon them by the said Deed of Trust, the said Rudolph Mohr, Jr., and Howard E. Mohr, as such Trustees, do hereby give notice that on Saturday, the 7th day of May, 1927, at the hour of eleven o'clock A. M. of said day, at the main entrance of the Daly City Hall, 51 Wellington Street, in Daly City, County of San Mateo, State of California, they will sell at public auction to the highest bidder for cash, in lawful money of the United States, all that certain parcel of land described in said Deed of Trust and situate, lying and being in Daly City, County of San Mateo, State of California, and particularly described as follows:

Lot Twenty-four (24) in Block Fifteen (15) as designated on the map entitled "Map No. 2 Vista Grande," which map was filed in the office of the Recorder of the County of San Mateo, State of California, on February 4, 1907, in Volume "C" of Maps at page 14 and a copy thereof entered in Volume 4 of Maps at page 52.

This property is sold subject to the following prior encumbrance: Deed of Trust for Four Thousand Dollars (\$4,000.00) dated October 11, 1926, G. A. Roth and Nellie Roth, his wife, to Anglo California Trust Company, a corporation, as Trustee for Moneta Investment Company, a corporation, recorded November 6, 1926, in the office of the County Recorder of the County of San Mateo, State of California, in Volume 272 of Official Records, at page 169 thereof.

Terms of Sale: Cash in lawful money of the United States, ten per cent payable to the undersigned Trustees at the fall of the hammer; balance payable within ten days thereafter at the office of said Trustees, Speedway Building, 1146 9th Street, San Francisco, California; and if not so paid, said ten per cent to be forfeited and the sale to be void. Acts of sale at purchaser's expense.

Dated, April 15, 1927.

IS YOUR CHILD READY FOR SCHOOL WORK?

Every parent of a child who will enter school next fall should ask himself the question, "Is my child ready for school?"

This refers particularly to the physical condition and general health of the child.

It is human nature to overlook faults in one's own children, and people have a way of regarding statistics and reports upon this subject as applying to other children but not to their own. Of course it is much more important that the physical condition of the child should be known than that the mechanical condition of the family automobile should be known. People do not hesitate to take the automobile to a mechanic for inspection and repairs, if necessary, but the child is likely to run along without any inspection or examination to determine his physical condition.

The Bureau of Child Hygiene of the California State Board of Health is working in co-operation with local authorities to provide local examination, at no cost, for children who will enter school next fall.

Public health nurses will provide considerable assistance in conducting this campaign, and any public health nurse in the community will be able to give full information concerning the opportunities for securing these examinations as they may occur. Such an examination will be thorough and is not a mere hasty "looking over" or inspection. The work takes time and costs money, but the local and state authorities are glad to provide this service for the children of their community in order that they may receive full value of the educational facilities at hand and in order that they may grow up into happy, useful citizens.

GERMANY'S PEACE HEROES

There may be an important significance in the fact that Germany's new series of nine postage stamps, bearing portraits of distinguished sons of the Fatherland, only one commemorates the greatness of a soldier, while eight honor leaders in the arts of peace.

Frederick the Great, the only military character represented, was an author of note, as well as a soldier and administrator, his published works including thirty-one volumes.

The other notables appearing on the new stamps are Goethe and Schiller, representing poetry and drama; Bach and Beethoven, composers; Durer, the 15th century painter; Kant and Leibnitz, philosophers, and Lessing, critic and dramatist.

These new stamps are not special or commemorative issues, but are designed for regular use for an indefinite period. Their subjects rank among the greatest genius Germany has given to the world, and in honoring them in preference to ruthless mili-

tary leaders the new republic is setting a good example.

Next Wednesday and Thursday at the State Theatre will be presented that much talked of play, "It." A fascinating cinematic revelation showing the inexplicable power of "It," that magnetic force whose possessor attracts everyone. This unusual story is woven around an imish shop girl, gifted with "It," but handicapped by a limited education. Against all odds she fascinates all with whom she comes in contact, rises to undreamed of heights and wins the love of her wealthy employer.

NOTICE OF SALE

Special Lien on Personal Property. Notice is hereby given in pursuance to Section 3052 of the Civil Code of the State of California, the undersigned will sell at public auction on Tuesday, May 19, 1927, at the hour of eleven o'clock A. M., at 252 Irvington Street, Daly City, California, that certain automobile, to-wit: One Ford Delivery Truck; Engine No. 2527026; California License No. 252-113. Owner, J. E. Timpson, 204 Woodrow Street, Daly City, California.

Said sale will be made to satisfy the account of the undersigned for storage and safe keeping of said automobile. MRS. R. SILICANI. First publication April 22, 1927. Last publication April 29, 1927.

NOTICE OF TIME APPOINTED FOR PROBATE OF WILL.

In the Superior Court of the State of California, in and for the County of San Mateo.

Probate—No. 4172. In the Matter of the Estate of Robert Nelson, Deceased.

Notice is hereby given that Thursday, the 12th day of May, A. D. 1927, at 10 o'clock A. M. of that day, and the Court Room—Probate—of said Court, at the Court House in Redwood City, in the County of San Mateo, State of California, have been appointed as the time and place for proving the will of said Robert Nelson, deceased, and for hearing the application of Margaret Nelson for the issuance to her of Letters Testamentary thereon.

(Seal) - ELIZABETH M. KNEESE, Clerk.

By Nancy Andrews, Deputy Clerk. W. H. Clay, Attorney for Petitioner, 600-502 Pacific Building, San Francisco, California.

Now! no need of waiting for hot water

All modern homes have hot water immediately

When you rise in the morning and turn on the nearest hot water faucet you have instant hot water—with an automatic gas water heater in your home.

No waiting for this excellent hot water service. And the cost is about one-fifth of a cent per gallon—the lowest cost for water heating.

For your present plumbing

An automatic gas water heater is easily connected to your present plumbing. Only minor pipe fittings are necessary. Then all you ever do is turn on a hot water faucet for a cupful or gallons of steaming water.

For further information on automatic gas water heaters call at our office or see one of the local dealers.

(Copyright by The Bobbs-Merrill Co.)

STORY FROM THE START

While despondent over the enforced hiding of her fiancé, Jim Dallas, slayer in self-defense of Homer Parkinson, Sybil Saunders, popular actress, is engaged to play Viola in a charity performance of "Twelfth Night" on Gull Island, on the Maine coast. After the play Hugh Bassett, Anne Tracy's fiancé, tells Joe he has heard he is spying on Sybil to learn the whereabouts of Jim Dallas and earn the reward offered by the Parkinson family. The boy denies it. To Anne he betrays his enmity toward Sybil. Stokes tells Sybil he has news of Dallas, and to secure privacy they arrange to meet in a small summer house. Flora Stokes tells Bassett she saw Sybil shot but did not see her murderer. Bassett notified the sheriff, Abel Williams. The latter suspects Flora Stokes. Anne Tracy discovers Joe hiding on the island, which he was supposed to have left, and warns him against attempting to escape.

CHAPTER VII—Continued

With that knowledge her outlook changed. Her passive role was over. If Joe had done it and if he was on the island he would try to get off at low tide. It was safe to assume that he was outside, hidden till the causeway was open. To go out to find him would be useless, he would never reveal himself to her, and if she was seen suspicion would instantly be aroused. She must get somewhere that would command the causeway and its approaches. The best place—the only place—was the living room entrance. From there she could see in all directions, the balcony end, the kitchen wing, the pine grove. She would try to wave him back, possibly get to him—she had to take her chances and trust to Heaven.

The tide was at full ebb at midnight. At a quarter before she made ready. She took from the bureau a book she had been reading—if she met anyone she could say she had come down to find it—and opened her door with the stealth of a burglar. A dead silence reigned as she stole down the stairs and into the living room.

At the entrance, pressed against the door, she looked out. It was a world of white enchantment, breathlessly still. She could see the patterned surfaces of leaves, the cracks and fissures of the rocks. Below, the channel lay almost bare, pools glistening like dropped mirrors, mounds of mud casting ink shadows.

She could hear the murmur of the men's voices from the open library windows, and like the throbbing of a muffled engine, the beating of her own heart.

Into that deep enveloping quietude came a sound, so faint, so infinitely small and hushed, that only expectant ears could have caught it. It came from the room behind her, and turning, she slid back against the wall, her body black against its blackness. The sound continued, the opening of a door opposite, the door into the kitchen wing. It seemed no door in the world had ever opened so slowly—creaking, stopping, resuming, dying away. She could see nothing, for the darkness of the gallery lay impenetrable over that furtive entrance.

There was a footstep, light as the fall of a leaf, and she saw him coming toward her in that high luminous pallor from the windows. He was like a shadow, so evenly dark, a shape without detail, moving with a shadow's noiseless passage. She saw the outline of the cap on his head and that he carried his shoes in one hand.

She came forward with a hand raised for caution, sending her voice before her in an agonized whisper: "Go back, Joe. The causeway's watched. You can't get over that way. Go!"

He was gone, a fleet flying, vanishing back into the darkness under the gallery. Out of it came the soft closing of the door.

The room swayed, pale light and darkness swam and coalesced. She knew she was near a table and put out her hand to steady herself by it, something solid to hold to for one minute. The polished surface slid under her fingers and she groped out with the hand that held the book. The book slipped from her grasp, fell with a thud like a thunderclap, and a grasping snatch to save it swept a lamp crashing to the floor. Panic dispelled her faintness and she made a rush for the door. She had gained it. Her fingers clutched round the knob, as she heard the steps of the men in the hall and knew it was too late to escape.

They burst in, thrust into the room's dim quiet as if shot by a blast.

"It's nothing," she called, hearing her voice thin and hoarse. "Nothing's happened. It's only Anne Tracy."

The lights leaped out and she saw them, Bassett with his hand on the electric button, stricken still, looking this way and that. His eye found her first, backed against the door, a small green-clad figure with an ashen face.

"What's this mean?" said Rawson

her hand so let it go. "I upset the lamp in the dark. I didn't see it, that's all."

"What are you doing here?" "I came down to get my book. I forgot and left it when I went upstairs."

She could get her breath now and her voice was under control. She felt strength oozing back into her body and with it courage.

"You're as white as a sheet," Williams blurted out.

"Did something frighten you?" demanded Bassett.

"No, but a sort of faintness came over me, there by the table, and I grabbed at it and upset the lamp."

Rawson looked at the table with the shattered fragments of the lamp beside it. It was not far from the entrance door.

"Did you see anything—anything outside?"

"No, not a thing and I didn't hear a sound."

"What do you suppose made you feel faint?"

"Oh!" She dared to make a gesture, upraised hands that dropped limply. "Hasn't there been enough here to make anybody faint?"

"You've got to remember, Rawson," said Bassett who thought the man's insistence unnecessary, "what a shock this has been—especially to Miss Tracy who was Miss Saunders' friend."

"I remember." Then to Anne: "Miss Tracy, if you should withhold any information from us you'd get yourself into a very uncomfortable position."

"I wouldn't, I wouldn't," she breathed.

Rawson's glance remained on her, dubiously intent. Bassett noted it with a resentment he found it difficult to hide.

"You can absolutely rely on Miss Tracy," he said. "She would be perfectly frank with you if she had anything to tell."

"No doubt, no doubt," said the other, and walked to the entrance. "I'm going out to have a look around." On the sill he turned and addressed Anne. "I gave some instructions to my ladies and I expected to have them followed. You'll please remember them in the future."

He passed out into the brilliancy of the moonlight. Now that he was gone Bassett felt he must make her understand. He had been astonished at what she had done. It was so unlike her, a disobedience of orders at such a time as this.

"You must do what they tell you, Anne. They have to make these rules and it's up to us to keep them."

"I will now, you can trust me. Mr. Williams, you can see how it was. I couldn't sleep and my mind was full of this awful thing, and I thought if I could put it on something else—get free from my thoughts even for a few moments!"

Williams grunted his comprehension. He felt rather tenderly toward her, she looked so small and wan and her voice was so pleading.

"Where was your book?" he asked.

"On the table behind you. I was feeling round for it and I think I pushed it off with the lamp."

"What was the name of it?"

"'Victory,' by Joseph Conrad."

He went to the table. His back turned, she and Bassett exchanged a long look. Williams picked up the book and came back with it.

"Here it is," he said, giving it to her. "And just make a note of the fact that you're not to go round the house at night after books or anything else."

She assured him she would not, she would give them no more trouble, and opening the door she slipped away. They remained without speaking till she came out on the gallery and walked to her room.

"Well," said Williams, "her book was there."

Bassett stared at him: "Was there? Why shouldn't it be? Good God! You have any idea she was lying? If you have, get it out of your head. I've known Miss Tracy for

three years and she could no more say what wasn't true than—well, she couldn't, that's all."

"I don't think she did. It sounded to me a perfectly straight story."

"It was. You can take my word for that."

They were back in the library when Rawson reappeared with Shine. Shine, unable to sleep, had been sitting by his window when Rawson, scouting, had stopped to inquire if he had seen anyone. Shine had not, but had volunteered to join in a hunt and the two had been about the house and the immediate vicinity. Nothing had been discovered and Patrick had seen no sign of life or heard no sound. Now they had come back for the electric torch and were going to extend their search. A person concealed on the seaward side of the island might be moving at this hour when the causeway was free. Bassett said he would go with them and the three men left the room by one of the three windows.

Williams opened the library door and turned off the lights. The noise of the departing trio would suggest to anyone on the watch that the house was free of police supervision and there might be developments. He took the desk chair as easier to rise from than the deep-seated leather ones and settled himself to a resume of what they had so far gathered.

He was convinced of Mrs. Stokes' guilt and ran over the reasons. A hysterical woman, frantic with jealousy—that alone was enough. But that woman had been the only member of the party who at the time of the shooting had been some distance from the house. She had taken the pistol with the intention of using it if an occasion offered. The occasion had offered. Miss Saunders, unable to resist the beauty of the evening, had gone to the Point alone. He set no store by Rawson's opinion that the woman's state of mind was too genuinely distracted. He considered it as part of a premeditated plan carried through with nerve and skill. She would have known that the report of the pistol would have been heard at the house. This, when Miss Saunders did not return, would have suggested foul play. And she, Mrs. Stokes, was the only person out on the island. A later entrance, with an assumption of ignorance, would have turned suspicion on her like a pointing finger. She was too intelligent for that.

It was at this juncture that he suddenly cocked his head and let his hands drop softly to the arms of the chair. From the stairs outside came a faint creak, a pause and then again, step by step a bare or stocking foot in gradual descent.

The big man arose as noiselessly as he could and made for the hall. But his bulk and his boots were not adapted to rapid movements or silent surprise. As he reached the hall he heard the pattering flight of light feet and cursed under his breath as he felt for the electric button. Her room—the one he had seen Miss Pinkney put her in—was just beyond the stair-head to the right. And her husband's—he turned and faced the secretive panels of its closed door.

Williams dropped his head and trod thoughtfully back to the library, but this time he left the hall lights on. Also he lit the library ones and allowed himself the solace of a cigar. "She won't try that again tonight," he said to himself and dropped into an easy chair.

Then Stokes must know. They had had opportunity for private conference in that hour after the murder when the others were out of the house. She had either told him or he had accused her; for all they knew he might have seen her do it. Anyway she wanted to get speech with him and it might be support, counsel, the matching up of their stories—but whatever it was she must have been in dire straits to take such a risk.

Williams smoked on, comfortably sprawled in the deep chair, thinking out a line of attack on the Stokeses. (TO BE CONTINUED.)

Records of History in Ancient Mirrors

In the days when a mirror was a piece of burnished, unframed metal it was in many countries a work of art. The chemistry of years have rendered these ancient mirrors no longer fit for the purpose for which they were made, but antiquarians still consult them for a glimpse into the past. Etruscan mirrors, for example, covered with pictures of gods and heroes, have been called the "figurative dictionary of Etruscan mythology," and this would apply to the Greek mirrors as well. Chinese mirrors also are in accord with the ideas of Oriental philosophy, and the Egyptian, while less ornate than the others, are deeply indicative of racial thought. With the Egyptians the very form of the mirror had a significance. It was generally in the shape of the solar disk, indicating the connection between the

graves. In Japan, the mirror was one of the three objects of the imperial insignia, the other two being the sword and the jewel. The oldest mirrors that exist today are the Egyptian.—International Studio.

The Loving Shepherd

A young and nervous curate was announcing that the rector would return on the following Sunday. He did so in the following flowery but rather confusing words: "I am happy to announce that your shoving leopard will be with you next Sunday and will occupy the pulpit at both services."—The Churchman.

Overpopulated Island

The island of Java is probably the most crowded country in the world. Thirty-six millions of people are massed together in a space no larger

Daddy's Evening Fairy Tale

By MARY GRAHAM BONNER

BONFIRE PARTY

The fairies had really been very busy, but Nick and Nancy enjoyed hearing about them as often as possible.

So Nancy said: "Can't you tell us a story about the fairies tonight?"

"Yes, indeed," answered Daddy. "I could tell you really lots of stories about them, for they have been having all sorts of good times these nice days."

"But the other evening they had a fine party that was given just for them."

"The brownies, you know, love lots of excitement and lots going on all the time."

"They're always happy jumping about and enjoying life."

"So they sent out an invitation to the fairies which read: 'The Brownies of Brownland request the pleasure of the company of every one of the Fairies of Fairyland to a bonfire party on Thursday evening.'

"The Brownies expect no replies, as they expect every fairy will just come."

"The fairies were much excited when they received this invitation."

"The Brownies' parties were always such fun, and a bonfire party—well, that was wonderful!"

"The fairies hadn't thought of bonfires somehow for a long time."

"Now, the Fairy Queen said that they would have to arrive at the Brownies' party in some unusual manner, as that would please the Brownies."

"She suggested that they should engage some hopping toads to pull their chariots to the party."

"The fairies thought that was a splendid idea, and they engaged the hopping toads."

"The hopping toads were much honored at being chosen to take the fairies to the Brownies' party."

"When the great big bonfire was lighted the Brownies entertained the fairies by doing a lot of fancy dances around the bonfire."

"The hopping toads were allowed to stay and watch the bonfire, too."

"It was the most beautiful blaze, and how the fairies did love seeing it!"

"But of course they were very careful not to go too near the fire."

"After it had died down and only the red embers remained the Brownies sang jingles, and the fairies joined in the chorus."

"And then, to the huge amusement of all, what should the hopping toads do but get up and do a special dance of their own!"

"They wanted to feel that they were a part of the party, too."

"It was all the fairies could do to say 'good night' when it came time to leave, for they had had the most glorious time at the Brownies' bonfire party, and they thought the Brownies were the most wonderful party givers that ever lived."

"The Brownies were delighted that the fairies had had such a good time and were so pleased, for they thought that it was all a Brownie could ask for—to please the fairies."

Half Hour to Go

Uncle John walked into the sunroom as Richard sat on the floor adjusting his mechanical toys.

"Well, Dick, you're a good boy this morning. I hope," said the uncle, cheerily.

"I don't know, Uncle John," answered the boy, doubtfully. "There's half an hour yet."

Dick looked at the clock and saw that it was just half-past eleven.

She Overheard

"Lena," said little Mollie to her big sister at breakfast, "did you tell daddy?"

"Tell daddy what?"

"Why, you told Mr. Billing last night if he kissed you again you'd tell daddy—and he did it again. I saw him!"—Happy Magazine.

Indians Display Humor

Indians have their humorous side just the same as white men. They play the stone game to see which will have to "foot it" over the first divide into the valley beyond to round up the ponies and bring them back for saddle use. The one that fails to guess which hand holds the telltale pebble is "it," while the lucky guesser lights his pipe and reclines in ease to laugh at the others' expense. Some of the Indians of the Glacier National park reservation also use this old sleight-of-hand pastime as a gambling game for trivial stakes. They are quite as dexterous with the small stone as the stage magician is in palming and passing a silver coin.

Woman's Lucky Day

After an hour's reading of the Bible, Mrs. C. M. Offel of Glendale, Calif., started to tend plants in her back yard. As she stepped outdoors an airplane crashed into the roof of her home, burying the Bible and chair with debris and parts of the flying machine. The pilot and his passengers were severely injured.

The same nose that revels in the perfume of wild roses revels in the aroma of fried ham.

A woman likes to be praised for qualities she knows she has, even if you exaggerate.

Tunneling by Electricity

The new tunnel of the Great Northern railway under the Cascade mountains is literally being driven by electricity. Blasting shots planted in the rock are fired by it, shoveling machines are driven by it, rock and dirt are hauled out and materials hauled into the bore by six, ten and twenty-ton mine-type electric locomotives, and lighting and some special heating in and around the job are all done electrically.

Sore eyes, blood-shot eyes, watery eyes, sticky eyes, all healed promptly with nightly applications of Roman Eye Balsam. Adv.

Try This On Your Piano

A colored woman elbowed her way through the crowd in the ten-cent store aisles to the music counter. But when the clerk asked her what she wished, to her embarrassment, she had forgotten the name of the piece she desired to buy.

She thought for a moment with a troubled expression; then her face brightened, and she asked the clerk, "Have you got that new piece 'Vasaleena'?"

Perfect Explanation

Judge—Have you anything to say before I pass sentence?

Tuning Radio Set Simple Operation

Every Fan Should Be Familiar With Details on This Subject.

Tuning a radio receiver is an art, but it is the sort of art within the reach of every one. The simple process of twisting the dials or setting the controls makes or mars the fullest enjoyment of broadcast reception.

In tuning the human ear plays just as important a part as in operating a player piano, or, for that matter, in playing a good piano by hand. We all know that many a fine piano or player piano has been made to sound "tinny" by some one with no ear for music. In such cases the person playing or operating the player instrument really thought the music produced was beautiful. Today countless radio sets are meeting the same fate at the hands of their owners, and sad to relate, even storekeepers and their salesmen in many instances have no adequate conception of how to rightly tune in the broadcast programs. Of course, there has been a wonderful improvement in the trade in this respect, and what I have stated and am about to state applies in greater and wider degree to the general public.

What Affects Tuning.

When we have come in radio to a reproduction of true vocal and instrumental tones what a pity that reception is marred because many who tune in either are unable to judge tone quality or else they want volume beyond the capacity of the number of tubes in operation.

Even tubes have their limitations, and when distortion occurs, not only when inferior speakers are used, but when the more powerful ones are combined with sets, it is usually the result of forcing the set to a greater extent than the tube in the last audio stage will stand.

This forcing may be done intentionally, as in the case of dealers with loud speakers outside their stores who purposely "force" the apparatus in order to obtain volume rather than tone quality, for attention only. In other words, such dealers sacrifice tone value for advertising value. There is no doubt, though, that the raucous blasts emanating from many such outside loud speakers create a false impression in the minds of some people, especially with those who have never had an opportunity of listening in under favorable conditions.

Then there is the set owner who "likes it loud" and leaves his dials in such position that the loud tones come through so distorted that the result is simply a maelstrom of noise.

An exceedingly simple method to follow in tuning is to adjust your set to the loudest notes of the orchestra so as to avoid distortion. Let me explain how this will work out. Supposing you had happened to tune in at the moment when, according to the particular composition being played, an especially soft passage was being rendered, written, we'll say in musical parlance, "pianissimo." Hearing the music coming in very softly—granting that you were not an accomplished musician—you would turn up the volume control so as to bring the broadcast in louder. Even at that moment distortion may have set in, but because of the fact that the original music itself was being played very softly you probably would pass it by unnoticed. Leaving the controls set in this fashion, what is likely to happen in a few moments when a "fortissimo," or very loud passage, is reached by the orchestra? Recognizable distortion. Your ear tells you something is wrong. You readjust the dials and soon—if you have a good set and speaker—you get real music. And if you know how to tune you will leave the dials set in this manner even though a few moments later the volume dies down to the "faintest whisper." For—unless something else is wrong either at the broadcasting station or with your apparatus—the score requires again the playing of soft music and you are getting it just as the person attending a concert would get it, namely, as written.

I might call this tuning for tonal quality, as distinguished from the technical necessity of setting the dials at the right position in order to bring in a particular station. Don't think for a moment that it requires an exceptional musical ear to tune for tonal quality in a proper manner. All of us are able to distinguish between noise and music particularly, as I have explained, when that miracle known as sound pours from the speaker in its louder manifestations.

Some Other Considerations.

Other considerations sometimes enter and proper tuning of the sort described is predicated upon a good receiver, a good speaker and good tubes. Wrong combinations would, of course, be a good set and a poor speaker or a poor set and a good speaker. But so important is the matter of tuning properly that even a poor combination can be bettered by careful adjustment of the dials and controls. Every one qualified to judge knows of cases where a good receiver has been combined with a speaker of inferior quality with the result that the set did not yield true vocal and instrumental tones with no characteristic element of beauty lacking, no unnatural quality added.

People seem to expect performance from radio that, under similar conditions, they wouldn't have any hope of exacting from, say, a motor car. The finest car in the world would be a dud

with poor oil, poor gas or some one at the wheel who didn't understand how to run it. Radio, by comparison, is simplicity itself to operate, but, like everything else in this world of ours, it must be handled properly.

Take the operation of one's tuning in a distant station. It would never do in most cases to leave the controls in the same position when switching back to a local station. Distortion again. There must be readjustments for variations in power and characteristics of local stations. Let your ear be the guide in all cases. Any one can recognize a rattle in the loud speaker—no doubt that's a high and loud note coming in with a tremendous bang—tune it down until you know it's coming in nicely; that's all there is to this business of tuning for tone. Incidentally, the advice I give is not for the old-line radio fan who has been through the ropes, but for the average citizen desirous of getting the most out of his set.

Transformer-Coupled Audio Amplification

Transformer-coupled audio amplification, which for some time bowed to resistance and impedance coupling, again takes up its position among the leaders. The reason is clear enough. Resistance and impedance couplings were far superior, in quality of output, to the old transformer method, for which only very mediocre transformers were available. With the advent of many high-quality transformers, such as those of Patent, General Radio, Ferranti, Amertran, Samson, Silver-Marshall, Thordarson, All American, etc., a return to popularity of the transformer-coupled amplifier was predicted, and this quickly proved to be the case. A short article, prepared by the technical staff of Radio Broadcast Magazine, has the following to say about the transformer-coupled amplifier:

"The conventional transformer-coupled amplifier consists of two stages. The overall amplification of such a system is generally around 300, and this is sufficiently high to give loud speaker reproduction with a moderately strong signal available at the output of the detector. The transformer-coupled system has the advantage that only two stages are required and can, therefore, be made quite compact. The plate current consumption of such an amplifier is fairly low and only moderately high voltages are necessary on the first stage. The quality of the results obtained depends primarily upon the transformers used and, for this reason, a certain amount of care is necessary in choosing the transformers that are to be incorporated in such an amplifier.

"The transformer feeding out of the detector stage should have a primary impedance that is somewhat higher than is necessary for that transformer used in the second stage. The higher impedance is necessary in the transformer feeding out of the detector tube due to the fact that the detector plate circuit generally has a somewhat higher impedance than the plate circuit of a tube used as an amplifier.

"If two transformers of different ratios are to be used, the rule is almost invariably to place the low-ratio transformer in the second stage. For commercial reasons, most manufacturers put a fixed number of turns on the secondaries of their transformers irrespective of the ratio required. The different ratio values are then obtained by winding on the necessary number of primary turns, this latter figure, of course, varying proportionally with the ratio. Thus, the lower the ratio, the greater the number of primary turns, and likewise, the greater the primary impedance. Proper 'C' battery on the amplifier tubes is absolutely essential if good quality is to be obtained. The 'C' battery voltage on the first stage should not be higher than is necessary to prevent overloading. Placing an unnecessarily high bias on the first tube increases the plate impedance of the tube, and it is essential that the plate impedance be kept low.

"If a 171 tube is used in the last stage with a 40-volt 'C' bias, we can impress signals on the grid of this tube which have a peak value up to 40 volts. If the transformer has a ratio of 4 to 1, the peak value of the voltage in the primary will be 10 volts. If a 201-A tube is used in the intermediate stage, we can obtain the value of peak voltage on its grid by dividing the voltage in the plate current, 10, by the amplification constant of the tube 8, which gives 1 1/4 volts. It follows then, that a 'C' battery bias of 1 1/4 volts on the first tube will be sufficient to prevent overloading."

Naval Signals Mystify; Signal Strength Code

Amateurs throughout the country are often somewhat mystified in picking up navy radio dispatches by reading that a certain station has been heard "with a signal strength of 7," or 9, or some other numerical designation. For their benefit the following latest navy signal strength code is given: xx0—No signal heard. 1—Heard but not readable. 2—Just strong enough to be read. 3—Weak. 4—Rather weak. 5 to 6—Fairly good. 7—Good and readable. 8—Strong. 9—Very strong. 10, 11 and 12—Too strong for comfortable reading.

Radio Invades India

A broadcasting company for India has been organized under the name of the Indian Broadcasting company with an authorized capital of \$540,000. The company intends to establish a broadcasting station in Bengal and another in Bombay.

Play on Stripes in Spring Frock

Self-Material Interestingly Converted Into an Effective Trimming.

Most women would prefer a smart frock to a practical one, but if the union of the two can be successfully accomplished, a real service has been performed, says the Woman's Home Companion.

In this frock, the combination of horizontal and vertical stripes is distinctly a spring style trend. By reversing the stripes for front panel, sleeve puffs and neck facing, self-material is converted into effective trimming. At the same time there is a very practical idea underlying this treatment of stripes, for by this method the frock can be cut from three yards of 40-inch material with almost no waste. The skirt portion is in three sections, which of course accounts for the economy in the cutting, but in no way detracts from the style value.

Nor does the economy of material interfere with freedom of movement, for four plaits, two on each side of the skirt, allow plenty of room for comfortable walking.

Even less than three yards of material will make this dress if one-fourth yard of contrasting material is used for the sleeve puffs and neck facing. In this case only two and three-eighths yards of forty-inch material are needed. It will not appear to be obvious makeshift, for contrasting sleeve puffs and neck trimming

Showing Combination of Horizontal and Vertical Stripes.

are frequently features of smart frocks when quantity of material is not a consideration. Organdy or batiste is suitable for this touch of contrast or perhaps a plain material which corresponds to the striped body of the dress.

As illustrated, this frock is made of washable silk showing three tones of rose separated by stripes of black and white.

Cotton material also will be found an excellent medium for this frock.

Paris Designers Have Own Ideas About Colors

So many colors have been launched by the haute couture this spring and so many new shades have been inaugurated by the textile manufacturers that the color question is becoming rather involved. It is not possible to point to one or two shades and say that these are the leading hues of the new season, yet out of the host of colors exploited by Paris it is both interesting and profitable to note the various favorites of the different couturiers. From the appended observations you will gather some idea of the colors evinced by the Paris haute couture.

Lelong, Lanvin, Doucet and other Paris houses continue to emphasize blues of every imaginable tint—ranging from forget-me-not blue to the dark indigo mosaic, the lavender hyacinth blue and the violet periwinkle and the cool sky blue called siltine. Martiat et Armand, Paul Poiret and Madeleine Vionnet stress black and white—especially for afternoon wear.

Two or three contrasting colors are now combined in one costume by Parisian designers. For instance, Chantal used alternating vivid hues in bands and panels. He showed a blue cape over a dress of the same shade, trimmed with gray, green and orange. In another model several different colors were stitched together in skirt panels.

Lanvin designed the culotte, or trouser skirt, in a sports costume of pistache-green crepe. The skirt is bloused and divided and very full—the fullness caught over the hips with buttons fastening at the front.

Two-Piece Combination for Youthful Debutante

One of the latest in sports frocks for the youthful debutante is a charming two-piece combination. The skirt is of toquet plaid and the blouse is of white flat crepe trimmed with the former material.

Paris Lowers Shoulder Seam; Fashion Taking

One of the curious phenomena of the mode is the facility with which some apparently insignificant whimsy will thunder its way to the peak of fashion and, having reached the summit, will perch there, pliantly and snugly, till the season's end. From December to March, observes a fashion writer in the Louisville Courier-Journal, you will listen carefully to reports and forecasts of the new Paris styles—hungrily you will devour each citation of the waistline or the silhouette—carefully you will observe the tendencies of the new sleeves or necklines, the leanings of the audacious hemline—and then, when you have about decided that you are mistress of the mode, there springs from nowhere an elfin style which gracefully proceeds to dominate a large sector of the mode. Be not crestfallen if you have failed to see its coming—none can—but it is your duty to recognize its presence, lest you march among the diffident demodes.

Several of the Topsy-turvy themes have been the portion of the current season, but none so significant as the dropped shoulder line which, beginning mildly enough, threatens now to march blithely off with most of the honors. It is no epoch-making style, this dropped shoulder, nor is it particularly difficult to achieve despite the protestations to the contrary of its originators. The sum and substance of the theme is that the shoulder seams leave their accustomed zones and descend gently toward the elbows, a matter of two or three inches. Thus if you will adopt this style your shoulder: seams must be placed about three inches below the shoulders instead of at them.

It is not due entirely to whim that this ingenious innovation owes its place beneath the modal sun. It has its utilitarian virtues, as any of its sponsors or wearers can tell you. Chief among them is this: As a silhouette slenderizer the dropped shoulder has few peers and no superiors among the smart themes of today. If embonpoint is too generously endowed with not too frail flesh you can happily espouse this much-saluted style. It is one of the watermarks of the current spring mode—it will step just as jauntily among the fashions of summer.

Curves Have Disappeared in London Spring Modes

Curves have gone the way of all excessive flesh and no longer does the ostrich feather sweep the new visible ear of England's womenfolk. Last year's hats were hard. This year they had to be pinched into becomingness for all. With the absence of the curve, the pinching was not easy or graceful.

Then Cubism came to the rescue, and in new models displayed by London milliners the pinching is angular, with the result that hats have developed almost as many facets as a fly's eye or a diamond.

Cubist hats are mostly made in fall, as having a more angular turn than the soft outlines of velvet. An adaptation of this hat in the shape of a mitre is also proving very popular.

Subdebs of Paris Are Wearing Longer Skirts

To lengthen the skirts of young girls sufficiently that they shall not be confused with their shorter skirted mothers, Paris adds a hem of tulle. Modesty forbids the Parisian girl who is not yet out to show more than eight inches of her silk stockings in the evening. Her mother, however, may display as much as twenty-four inches. The procedure of growing up which used to consist in lengthening the skirts has been reversed. They shorten them now.

Chimpanzees Slow to Pick Up Human Speech

A chimpanzee might be taught to talk with its fingers, as deaf people talk, more easily than it could be taught to imitate sounds of human speech, in the opinion of Dr. Robert M. Yerkes and Margaret S. Child of the Institute of Psychology at Yale University. Several scientists who observed and studied higher apes have tried to teach them to say words, but without much success, these psychologists state in reporting in the Quarterly Review of Biology what is now known about anthropoid behavior. "Perhaps the chief reason for the ape's failure to develop speech is the absence of a tendency to imitate sounds," Doctor Yerkes explains. "Seeing strongly stimulates to imitation, but hearing seems to have no such effect." He believes that the sounds made by apes are not language, but are primarily emotional expressions, which are not learned by imitation.

Bell-Ans Really Sure Relief

Thousands of Testimonials From Doctors, Nurses and Dentists Say So.

For correcting over-acidity and quickly relieving belching, gas, sick-headache, heartburn, nausea, biliousness and other digestive disorders, BELL-ANS has been proved of great value for the past thirty years. Not a laxative but a tested Sure Relief for Indigestion. Perfectly harmless and pleasant to take. Send for free sample to: Bell & Co., Inc., Orangeburg, N. Y. —Adv.

Violet Ray Windows

School room windows equipped with a new kind of glass which transmits ultra violet rays are producing "taller and fatter" English school boys, according to the London correspondent of the Journal of the American Institute of Architects. "If the education committee of Smethwick, in Staffordshire, is correct in its assumptions, the physical welfare of England's youth is henceforth guaranteed," he declares.

Cause for Exasperation

"What exasperates me more than anything else about the boobies who differ with and from me on politics, religion, the money question, the tariff, weather omens and the gulf toward which we are rapidly and inevitably drifting," said J. Fuller Gloom, the human hyena, "is that they are so infernally proud of their own idleness." —Kansas City Times.

Simple Matter

Guy Lundy of the Universal City electric department was having trouble with his car. He worked and worked but it wouldn't start.

"I guess it has a short circuit," he remarked to his wife. "How silly!" was the reply. "Why don't you lengthen it?" —Los Angeles Times.

To Combat Rheumatism

Rheumatism is said to cost the world as much as tuberculosis in loss of wages and labor. The malady is much more important economically than is generally believed, and an international society to combat it has been organized.

Constipation generally indicates disordered stomach, liver and bowels. Wright's Indian Vegetable Pills restore regularity without gripping. 372 Pearl St., N. Y. Adv.

The Salesman

"Well, old man, what are you doing these days?" "Oh, I'm selling furniture." "And what furniture have you sold?"

"Only my own, so far." —Montreal Family Herald.

Confession

Jane—I admire the strong, manly man who knows what he wants. Joe—Er—yes, exactly. But what must he want? "Me, of course."

The evening of life brings with it its lamps. —Joubert.

Covered Wagon Pioneer Quickly Restored to Health

Was So Weak Could Scarcely Use Arms or Legs. Sacramento Resident a Victim of "Flu," Loses Weight and Vitality. Finds Long Sought Relief, Strength Restored. Praises Tanlac.

Pioneer blood flows in the veins of Frank Rikert, Box 1035, R. R. 10, Sacramento, Calif., a prominent stockman who trekked over the rough, hazardous trails from Illinois in the early sixties. But even his brawn, muscle and splendid health broke under the strain of modern living. "Flu" left its mark and threatened his life. "I didn't care whether I lived or died, I felt so badly," said Mr. Rikert, "when I began taking Tanlac. My strength had vanished, sapped by the 'Flu.' My arms and legs were so weak that they were almost useless. I couldn't even turn over in bed without help, so completely undermined was my strength and vitality.

"One night my wife saw the Tanlac advertisement in the paper and urged me to try it. I bought a bottle and started taking it, and I felt better right off. In a few weeks I was able to do all my work. Not only did my weakness disappear, but I actually gained twenty pounds, and I have felt fine ever since.

"Yes, sir, I firmly believe that Tanlac saved my life. Naturally, I'm so enthusiastic about Tanlac I am telling all my friends it's a great medicine

Soft Corns

Money Back Says Your Druggist if Moore's Emerald Oil Doesn't Do Away With All Soreness and Pain in 24 Hours.

Get a bottle of Moore's Emerald Oil with the understanding that if it does not put an end to the pain and soreness and do away with the corns, your money will be promptly returned.

Don't worry about how long you've had it or how many other preparations you have tried. This powerful penetrating oil is one preparation that will help to make your painful aching feet so healthy and free from corn and bunions troubles that you'll be able to go anywhere and do anything in absolute feet comfort.

So miraculously powerful is Moore's Emerald Oil that thousands have found it gives wonderful results in the treatment of dangerous swollen or varicose veins. Your druggist is selling lots of it.

EYES HURT?

For relieving eye troubles, such as redness, itching, watering, and all other eye ailments, use Winslow's Eye Liniment. It is a sure relief for all eye troubles. 250 Broadway, New York.

Keep Stomach and Bowels Right

By giving baby the harmless, purely vegetable, lactone and children's emulsion, MRS. WINSLOW'S SYRUP.

Drugs not working, gratifying results in making baby's stomach digest food and bowels move as they should at regular times. Guaranteed free from narcotics, opiates, alcohol and all harmful ingredients. Safe, effective, satisfactory. At All Druggists.

Hay Fever

Effectively no need to suffer. We guarantee complete relief to Hay Fever victims within 48 hours after use of POCABAY. No harmful or habit forming drugs. Money back if not relieved in 48 hours. Write at once for testimonials and complete details.

Pocabay Company, 200 Dodge St., OMAHA, NEBR.

CARBUNCLES

Carboid draws out the core and gives quick relief.

CARBOIL

GENUINE SOY BEAN OIL. All Druggists. —Money back guarantee.

DALY CITY

NEWS NOTES OF PERSONAL INTEREST

By MARC WORST

Mr. and Mrs. Earl Abbott have returned from a trip to Arizona.

Mr. and Mrs. A. P. Allen have been spending the week at the Allen ranch near Palo Alto.

Mrs. Charles H. Gatchell is spending a portion of the week with Prof. D. F. Gatchell at Centerville.

Elmer Blaylock visited at the country home of Mr. and Mrs. H. Faulkner, at Stevens Creek, over the week end.

James Hawkins, superintendent of sanitation, requests that weeds cleared off of lots be burned and not thrown out in the street.

Funds for the annual Junior-Senior banquet at Jefferson high school will be raised tonight at a dance in the high school auditorium.

Bethel No. 26, Job's Daughters, will hold a whist Saturday, May 14, in the George Washington Masonic Hall, at San Jose and Santa Rosa avenues.

William Reimar, of 81 Alexander street, is confined to his home with a broken foot.

Mr. and Mrs. David Cartwright visited Mrs. E. R. Blaylock last Wednesday evening.

Richard Betts, whose home is in Arizona, is visiting at the home of Mr. and Mrs. Earl Abbott.

The Buddy's Club will celebrate its second anniversary on Saturday, May 14, with a dance in the Daly City Auditorium.

"Dad's Night" was celebrated on Thursday evening by Crocker Chapter, Order of De Molay, with an entertainment and banquet.

Trustee A. J. Bodien and wife were guests over the week end at a house party held at the Redwood Lodge, in Monte Rio, on the Russian river.

Mizpah Circle, C. O. F., will hold their next regular whist at Masonic Hall, Daly City, on May 13. Come and bring your friends. Mrs. J. V. Gordon will act as chairlady.

Dog licenses have been due since January 1, and are payable at the marshal's office in the City Hall.

Crocker Chapter Order of De Molay, will hold a whist party, Friday, May 6, in the Masonic Hall. Admission 35 cents. There will be refreshments.

John S. Parry, Grand Secretary of the Fraternal Order of Eagles, with headquarters in Kansas City, was a guest of the local Aerie of Eagles on Thursday evening.

Several children playing ball in the street have been struck and injured during the year. Unless ball playing is confined to vacant lots, action will be taken by the city.

A number of dogs in this city have been reported as becoming a nuisance as a result of their barking at night. Unless the owners curb them, steps may be taken to authorize the pound-master to lock them up.

Mizpah Circle, C. O. F., held a very successful meeting last Friday evening. After the ritualistic and business meeting, all adjourned to the banquet hall, where a delicious spread was enjoyed by the members.

Several houses have been broken into during the week. Be sure to lock all windows and doors upon retiring or on leaving the house at night. On seeing any suspicious characters, call Randolph 55 immediately.

Mrs. E. Haskins, residing at 47 East Lake avenue, had the misfortune to break her arm last Friday. Mrs. Haskins is now at the Franklin hospital where she is getting along nicely, and her friends hope for a speedy recovery.

Next Saturday, April 30, "The Eagle of the Sea," a highly romantic adventure story of pirate ships, fights at sea, a plot to rescue Napoleon and the gallant love of Jean Lafitte, last of the buccaners, will be presented at the State Theatre.

The Ladies Aid of Grace Presbyterian church desire to announce the regular luncheon of the month, to be given Wednesday of next week at the dining room in the church at 12 noon. All are invited and will find a good meal and a hearty good time.

Last Sunday morning Mrs. Lorraine Wall entertained the following at a breakfast at her home on Bellevue avenue: The Misses Bessie Hulten, Tessie O'Connor, Edith Noble, of Piedmont; Audrey Diamond, Marge O'Connor, Helen Rowland, and Olga Seminore, of Piedmont.

Mr. and Mrs. Lewis J. Muir, of 170 Irvington street, were welcome callers at the Record office last Monday. Mr. Muir is an employee of the San Francisco Chronicle and a booster for Daly City. He has long been a subscriber of the Daly City Record, believing that all good citizens should patronize their local newspaper.

Under the auspices of Carmel Institute No. 2, Young Ladies' Institute, an informal dancing party will be held at the Clift Hotel, Geary and Taylor streets, Saturday evening, May 14. The Florentine ballroom, spacious and pretty in its modern settings, has been engaged for the evening. Special features of interest to both dancers and spectators are scheduled.

The double bill at the State Theatre next Sunday, May 1, includes "The Silent Rider," the eternal triangle staged with a fearless cowpuncher in love with an outlaw's wife, and "My Official Wife," the sensational scene of which is where the movie star's husband resents the actions of her leading man and gives him a severe thrashing in front of the camera.

The body of Alfred May, retired San Francisco merchant, was found Sunday at Pedro Point by Mr. Gowan and Mrs. Lyman, of San Francisco. They notified Mr. Mori, a rancher, who called Constable Landini. Accompanied by Mrs. L. D. Pepper, deputy coroner, he drove to the Point and they recovered the body. It was taken to the funeral parlors of W. C. Lasswell & Co. The inquest was held Tuesday. A verdict of "death by drowning in the Pacific ocean, cause unknown," was rendered.

Removal Notice

—Dave Campbell, Daly City Plumber, has removed to his new location, No. 16 MISSION CIRCLE, one-half block from Daly City Bank, up Bepler Street.

For quick action
Telephone
Randolph 2204

Mr. Pescara, of Mission street and Knowles avenue, is ill at the St. Francis hospital.

Mr. and Mrs. John O'Connor, of Oakland, visited at the O'Connor home on Evergreen avenue last Saturday evening.

Harry Efler and Earl McDaniels visited Walter and Gertrude Murphy, of Hanover street, on Wednesday evening.

Mrs. Rodenberger and Mr. Ed Sullivan were visitors at the home of their sister, Mrs. Helena O'Connor, last Friday.

Mrs. Helena O'Connor is up and around after her recent illness, which is good news to her many friends in the community.

The Woodrow Wilson-Vista Grande P. T. A. will hold a frankfurter sale next Wednesday, May 4, at each of the above named schools.

The Misses Edith Noble and Olga Seminore, of Piedmont, were the week end guests of Miss Tessie O'Connor at her home on Evergreen avenue.

The Ladies' Auxiliary of Company No. 4, Daly City Volunteer Fire Department, held a dinner Thursday night in a local restaurant.

The next regular monthly P. T. A. whist will be held at the home of Mrs. Falk, 1270 Brunswick street, Tuesday afternoon, May 10, at 2 o'clock. Come and bring your friends.

A delegation from the Native Daughters of Petaluma will be present at the initial dance to be held this Saturday evening, April 30, by El Carmelo's drill team and Niantic Parlor's drum corps, their main object being to get pointers from El Carmelo's drill team, as they wish to organize one of their own in Petaluma.

Crocker Chapter, Order of De Molay, will hold its quarterly whist party on Friday evening, May 6, at 8:30 o'clock sharp, in the Masonic Hall, Daly City, the proceeds of which will go to the first degree fund. Tickets, at 35 cents each, are now on sale and may be obtained from any of the members. There will be a number of special features and refreshments will be served.

The grammar school board of trustees met Wednesday in the Vista Grande school. A large number of teachers were present and asked information concerning the possibility of a salary increase. The board was anxious to assist and has taken the matter under advisement in an attempt to find ways and means. A special election to raise \$17,000 was ordered for May 28. The money is needed for additional rooms in the General Pershing school, and for improvements in various buildings.

NOTICE OF ELECTION FOR DISTRICT SCHOOL TAX.

NOTICE IS HEREBY GIVEN to the electors of the Jefferson School District, County of San Mateo, State of California, that an election will be held on the 28th day of May, 1927, at which will be submitted the question of voting a tax to raise funds to build a two room addition to the General Pershing School and for additional school purposes and facilities. For these purposes it is necessary to raise Seventeen Thousand Dollars (\$17,000.00).

The polls in the three precincts will be open at seven o'clock A. M. and will be kept open until seven o'clock P. M.

Precinct No. 1, Jefferson Hall.

H. D. Pierce, Inspector; Mary Rudolph and Annie Flick, Judges.

Precinct No. 2 consists of that portion of the Jefferson School District described and bounded as follows, to-wit:

A bank with a "heart and a backbone"

NO FINANCIAL INSTITUTION can be successful in the truest sense of the word unless its personnel is willing to serve the public with sincerity and human consideration. The executives of the Bank of Italy wish to have the institution renowned for its cordiality and "human-ness" as well as for its great financial strength.

It is the policy of the executives here to give friendly treatment to everyone in the community irrespective of position or financial rating.
